User general controls

ProcureHub landing page

On the ProcureHub website landing page you will see two buttons: **Register** (1) and **Login** (2).

1. The **Register** button navigates to the **Registration page**
2. The **Login** button navigates to the **Login page**

ProcureHub landing page

Registration Page

The **Register** button opens the **registration page**, where users can set up your new profile where you add your personal details and company details. This registration will allow you to participate in the procurement process.

ProcureHub

Registration page

There are multiple entries:

1. **First Name:** enter your first name
2. **Last Name:** enter your last name
3. **Email:** enter your email address
4. **Password:** enter your desired password
5. **Confirm Password:** confirm the password you entered in your previous entry
6. **Role:** from a dropdown menu, choose the desired role:
 - 6.1 **Buyer:** buyer role for buying in auctions
 - 6.2 **Seller:** seller role for selling in auctions

The image shows a registration form for user roles. It consists of a dropdown menu labeled 'Role' with two options: 'Buyer' and 'Seller'. The form is highlighted with red boxes. To the left of the form, there are red numbers 6, 6.1, and 6.2, which likely correspond to steps in a larger process.

6

6.1

6.2

Role

Buyer

Seller

Registration page – user role

7. **Company Name** – enter the name of the company you are from
8. **Phone Number** – enter your personal phone number
9. **Address** – enter the address of your living place
10. **Company Address** – enter the address of the company you are coming from
11. **Confirmation Register** – confirm all of your previous entries for registration, after which you land on the Login page
12. **Menu Register** – landing on the registration page
13. **Menu Login** – landing on the login page

Login Page

The **Login** button opens the **Login page**, where the user can log in safely and securely, using their personal information to access their account.

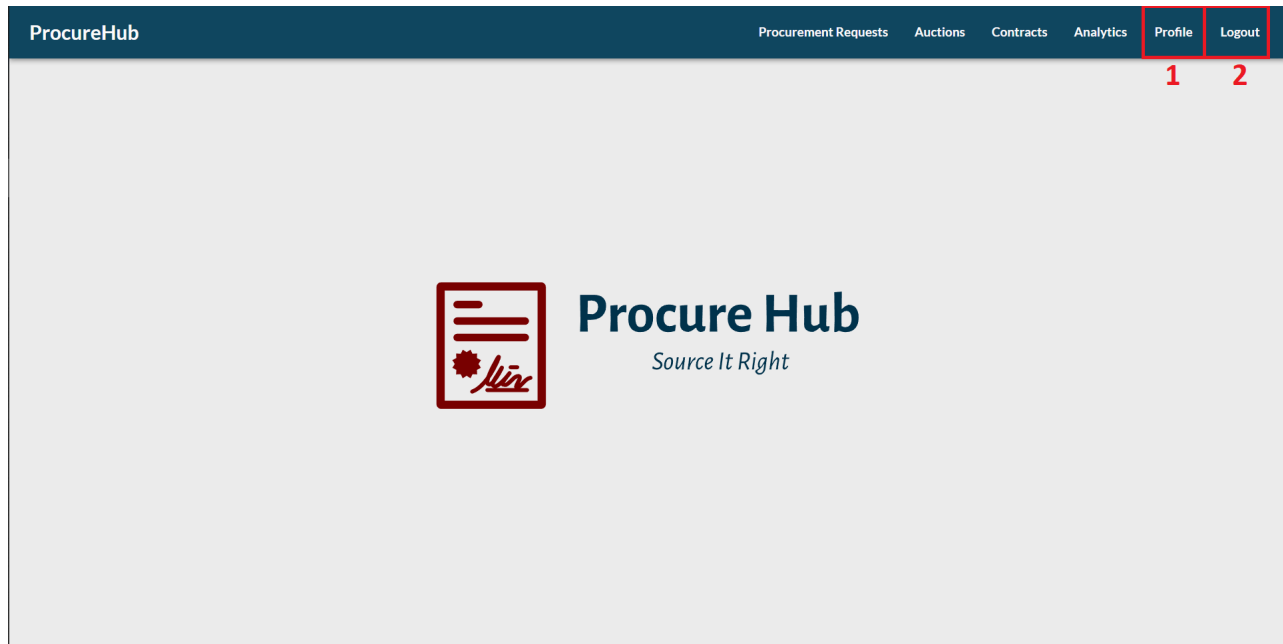

The image shows a login form on a light gray background. It consists of three vertically stacked elements, each enclosed in a red rectangular box and numbered on the left in red. The first box contains an input field with the placeholder text 'Email'. The second box contains an input field with the placeholder text 'Password'. The third box contains a dark blue button with the white text 'Login'.

Login form

1. **Email:** enter your email address that you used on the registration page
2. **Password:** enter your password that you used on the registration page
3. **Login:** login confirmation button that will lead you to the dashboard

General user controls

Every type of user shares two buttons on their landing pages: **Profile** (1) and **Logout** (2).

Home page after login

1. The **Profile** button navigates to **Profile page**
2. The **Logout** button logs the user out and bring you back to the login page

Profile Page

The **Profile** button opens the **profile page**, where the user can update their personal information so that it fits their new information for the profile.

The screenshot displays a profile page with various input fields and buttons, each highlighted with a red border and a red number. The layout is as follows:

- 1**: Profile Picture section, containing a photo of trees and an "Upload new" button.
- 2**: Company Logo section, containing a bar chart icon and an "Upload new" button.
- 3**: First Name * input field, containing the text "FirstName".
- 4**: Last Name * input field, containing the text "LastName".
- 5**: Email input field, containing the text "email@gmail.com".
- 6**: Role input field, containing the text "Seller".
- 7**: Phone Number * input field, containing the text "+123".
- 8**: Address * input field, containing the text "adresa".
- 9**: Company Name * input field, containing the text "Bosna".
- 10**: Company Address * input field, containing the text "123123".
- 11**: Bio input field, containing the text "Bio Example" and a blue checkmark icon.
- 12**: A dark blue button labeled "Save Profile Info".

Profile page

- 1. Profile Picture:** update your profile picture
- 2. Company logo:** update your company logo
- 3. First Name:** update your First Name

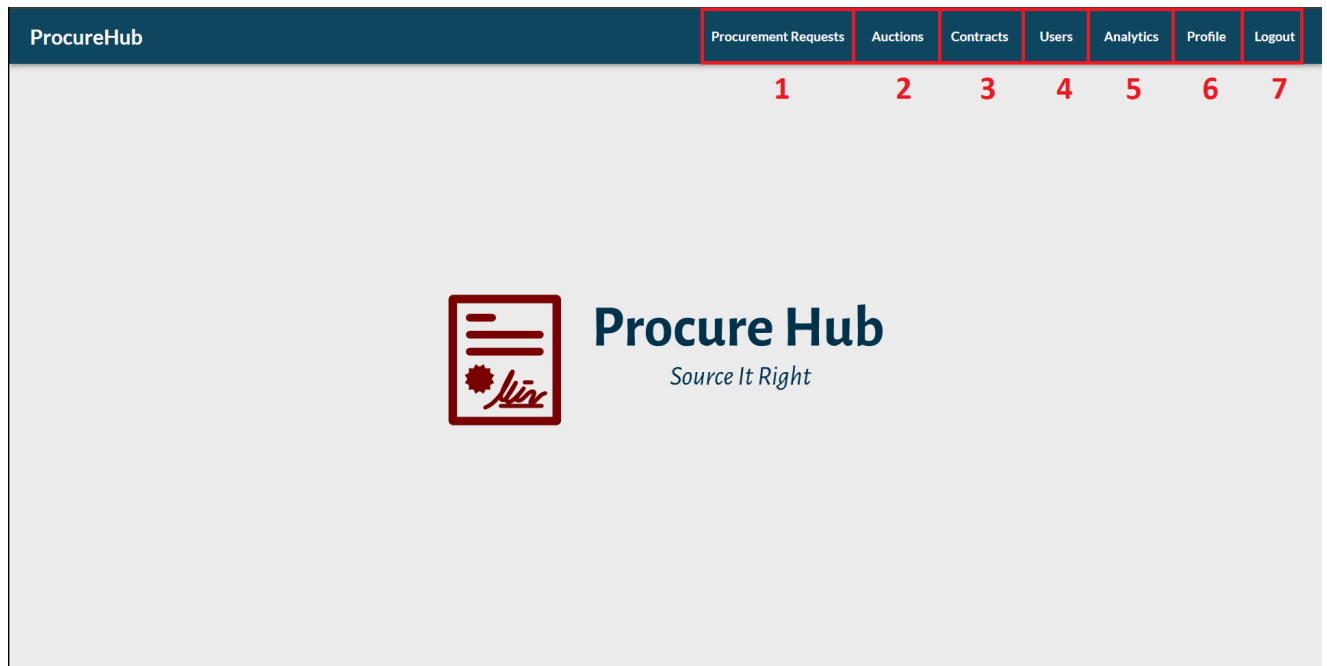

4. **Last Name:** update your Last Name
5. **Email:** email cannot be updated
6. **Role:** role cannot be updated
7. **Phone Number:** update your phone number
8. **Address:** update your address
9. **Company Name:** update your company name
10. **Company Address:** update your company address
11. **Bio:** update your biography
12. **Save Profile Info:** click to save your profile information from the previous entries

Admin control

Admin panel

On the admin panel landing page you will find 6 buttons:

1. **Procurement requests:** opens a window for monitoring all procurement requests
2. **Auctions:** opens a window for monitoring all scheduled, active, and closed auctions
3. **Contracts:** opens a window for monitoring all contracts
4. **Users:** opens a window for monitoring all users
5. **Analytics:** opens a window for monitoring website analytics
6. **Profile:** opens the profile window
7. **Logout:** log out of the admin account

Admin panel

Procurement requests page

This page contains two sections: **Filters** (1) and **Procurement requests** section (2).

Procurement requests 2

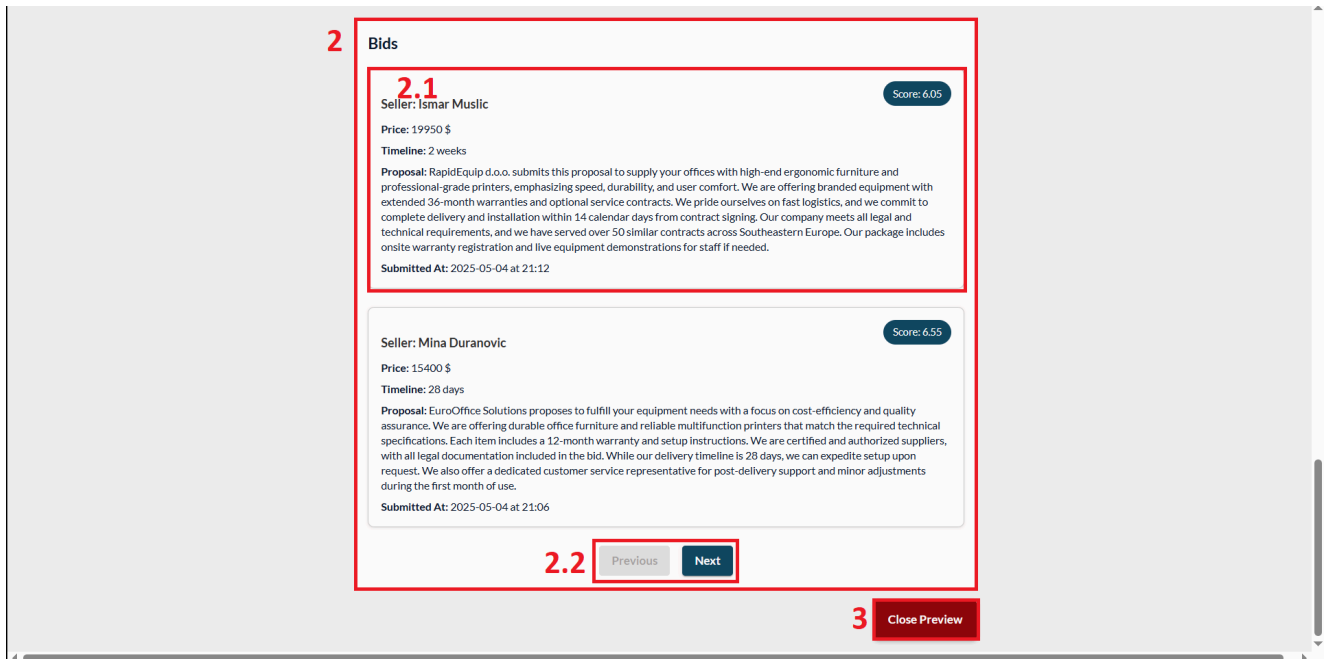

Clicking on a request opens the **Request preview** window. It contains more information about the request. There are two sections:

1. **Request sections:** contain the information stated earlier as well as Location, Budget range, Enable bid proposals editing, lists of Items Requirements and Criteria for the request.

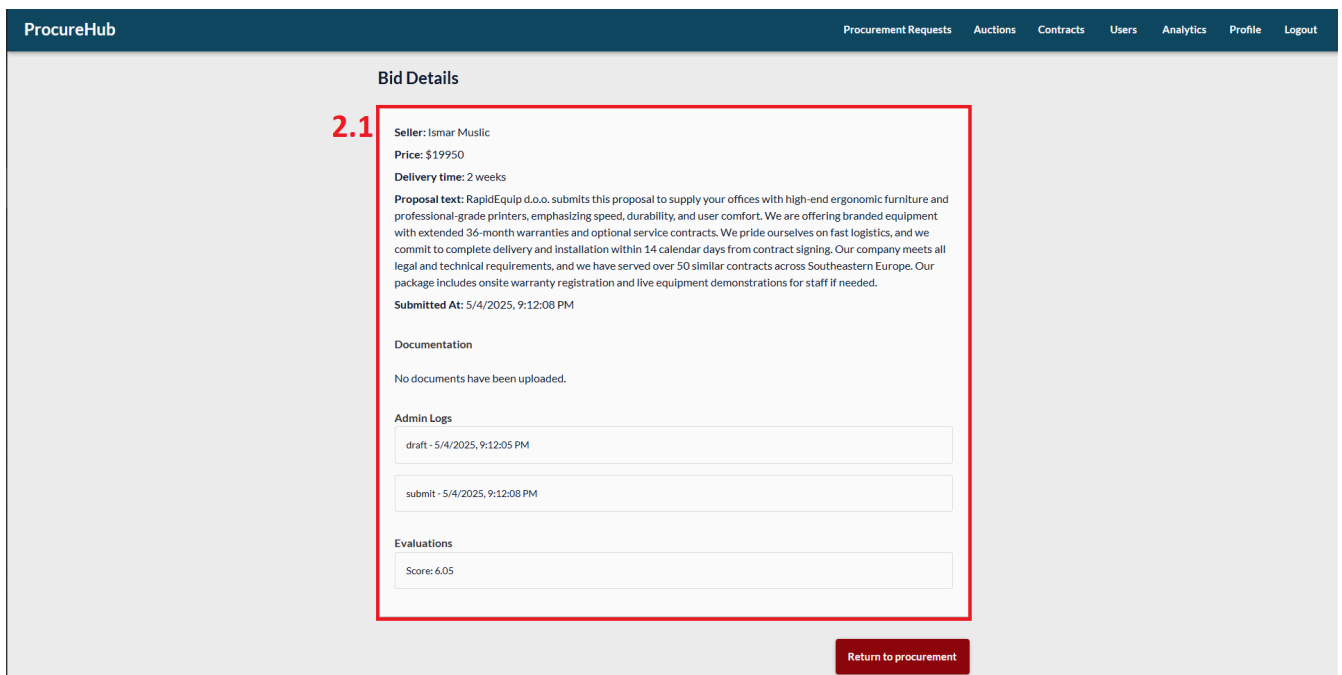

Procurement request

2. **Bids section:** contains
 1. **A list of bids** made for the request as well as information about those bids including Seller name, Price, Timeline, Proposal, Submission date and Bid score. **Clicking on any of the bids** opens the Bid details window where you can find extra information about the bid and a **red button at the bottom right** that takes you back to the procurement request.
 2. Two buttons, **Previous** and **Next**, for navigating through the bid list.
 3. At the bottom there is a **Close Preview** button that brings you back to the Procurement requests page.

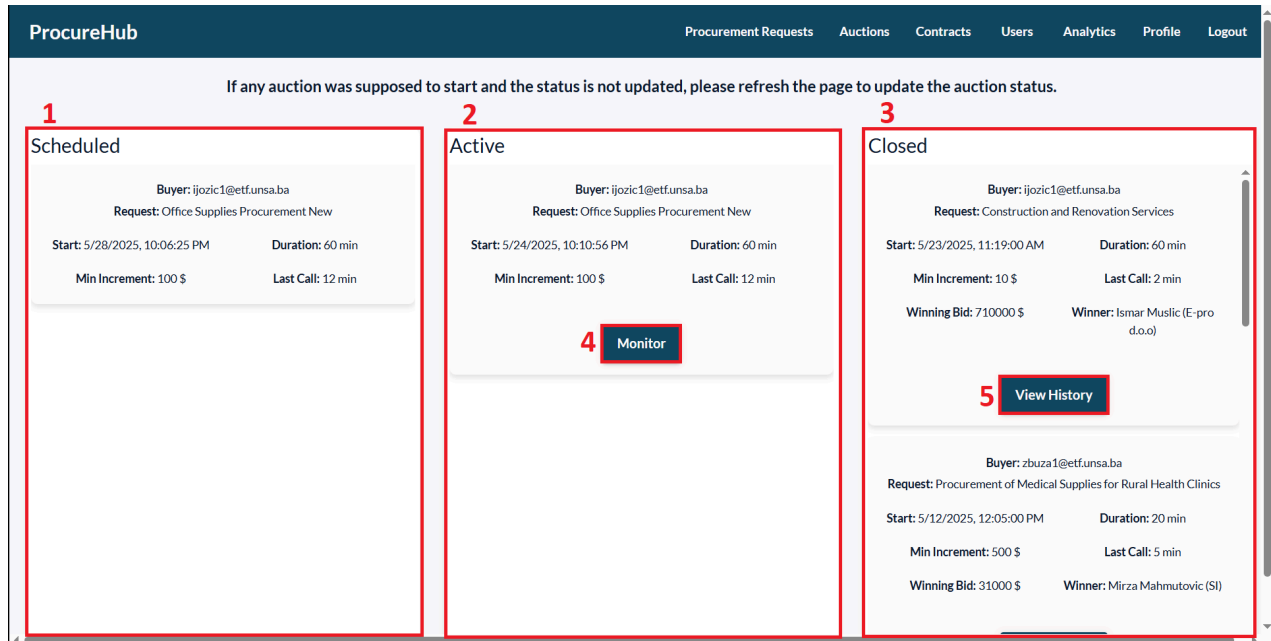

Procurement request bids

Request bid details

Auctions page

This page contains three sections: **Scheduled** (1), **Active** (2) and **Closed** (3) auctions where you can see some information about the auctions.

Auction page

There are also two buttons in this page:

Monitor button (4): opens a page where you can see the **Auction Leaderboard** (1) and the **Auction Timer** (2). There is a red button **Close Details** (3) that brings you back to the previous page. The Auction Timer updates to show when the auction is ending with the *Last Call* text.

View History (5): Previews the bidding history for a given auction. There is a **Close** button (1) at the bottom right.

Analytics page

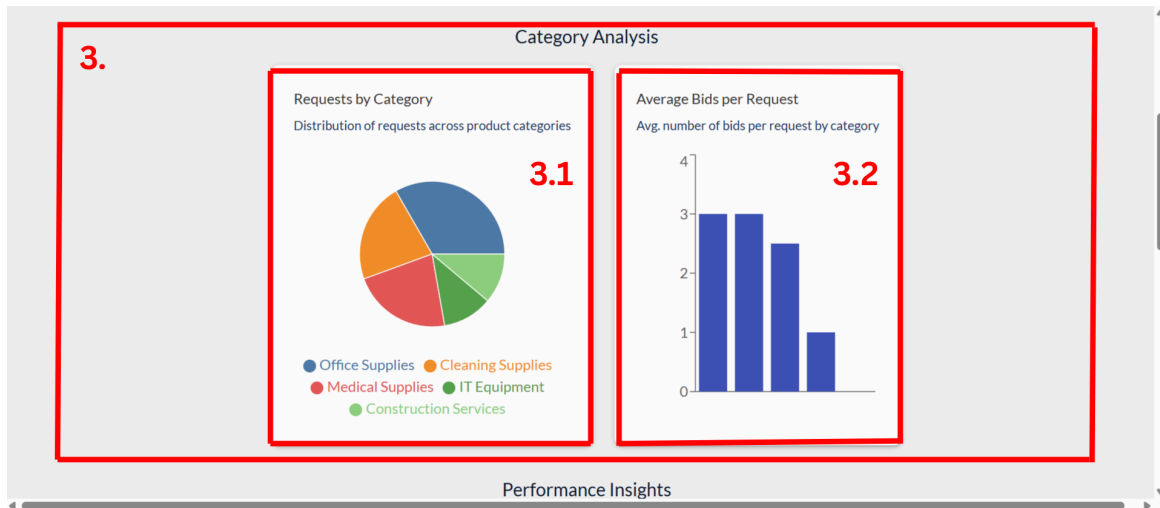

Contains **analytics about the platform** itself, including: Platform Overview, Category Analysis, Performance Insights and Request Analysis.

Analytics page 1

1. **Platform Growth** button: opens a preview of the website's visitor analytics, Top Sources, Top Pages, Locations, Devices and Goal Conversions (Pictures Analytics page – Platform growth preview 1 and 2)
2. **Platform Overview**: summary of key platform metrics
 - 2.1 **Total Requests**: the total number of requests posted on the platform including active, closed, frozen, and awarded
 - 2.2 **Total Auctions**: the total number of auctions, including scheduled, active, and closed
 - 2.3 **Total Bids**: the total number of submitted bid proposals

2.4 **Frozen Ratio**: the ratio of frozen requests to the total number of requests.

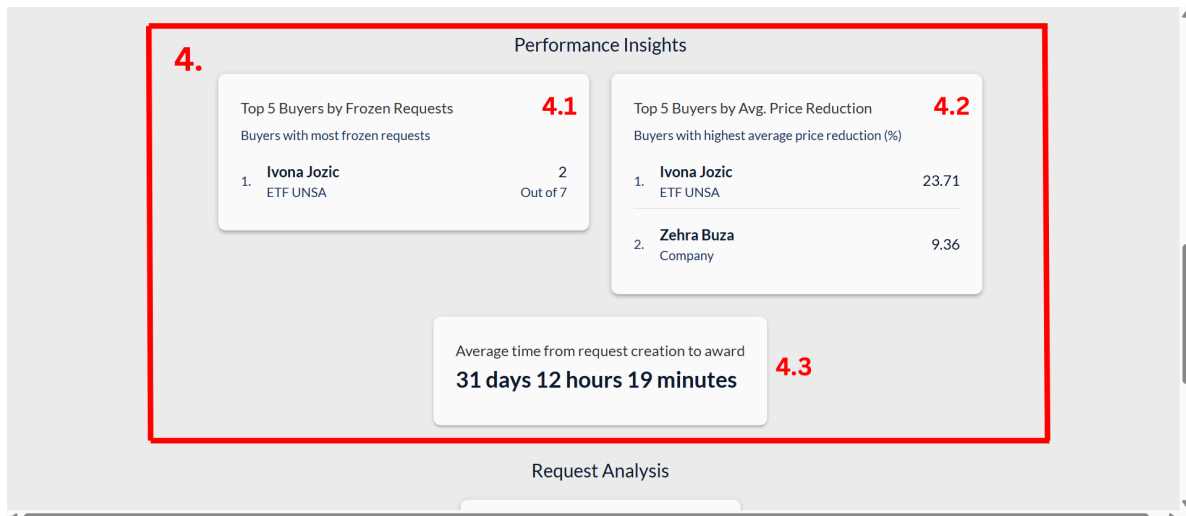

Analytics page 2

3. Category Analysis:

3.1 **Requests by Category**: the number of requests in each category

3.2 **Average Bids per Request**: the average number of bids submitted per request

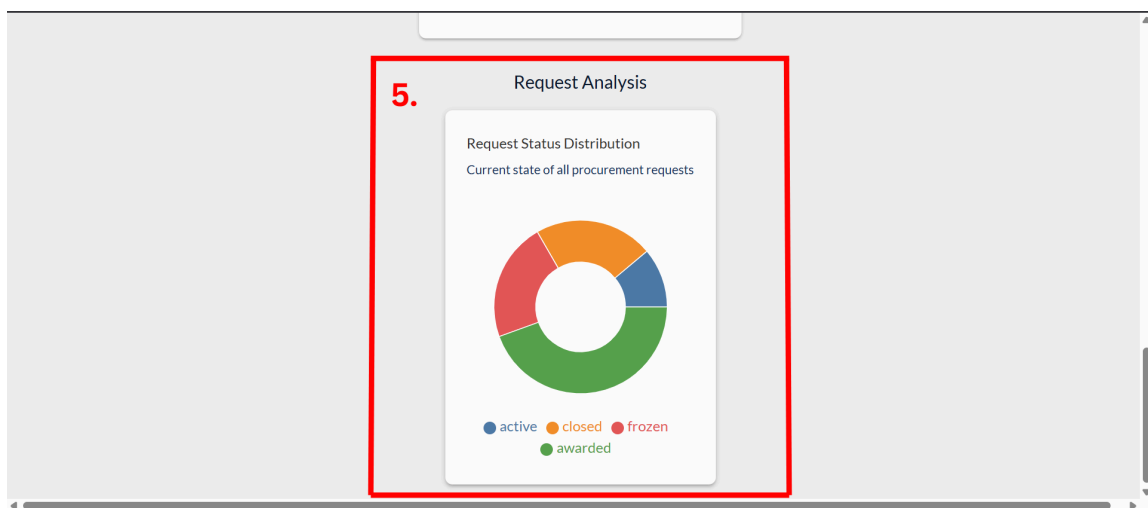

Analytics page 3

4. Performance Insights:

4.1 **Top 5 Buyers by Frozen Requests:** buyers with the highest number of requests frozen by an admin

4.2 **Top 5 Buyers by Avg. Price Reduction:** buyers with the highest average price reduction during auctions

4.3 **Average time from request creation to award:** the average time from when a request is created to when it is awarded.

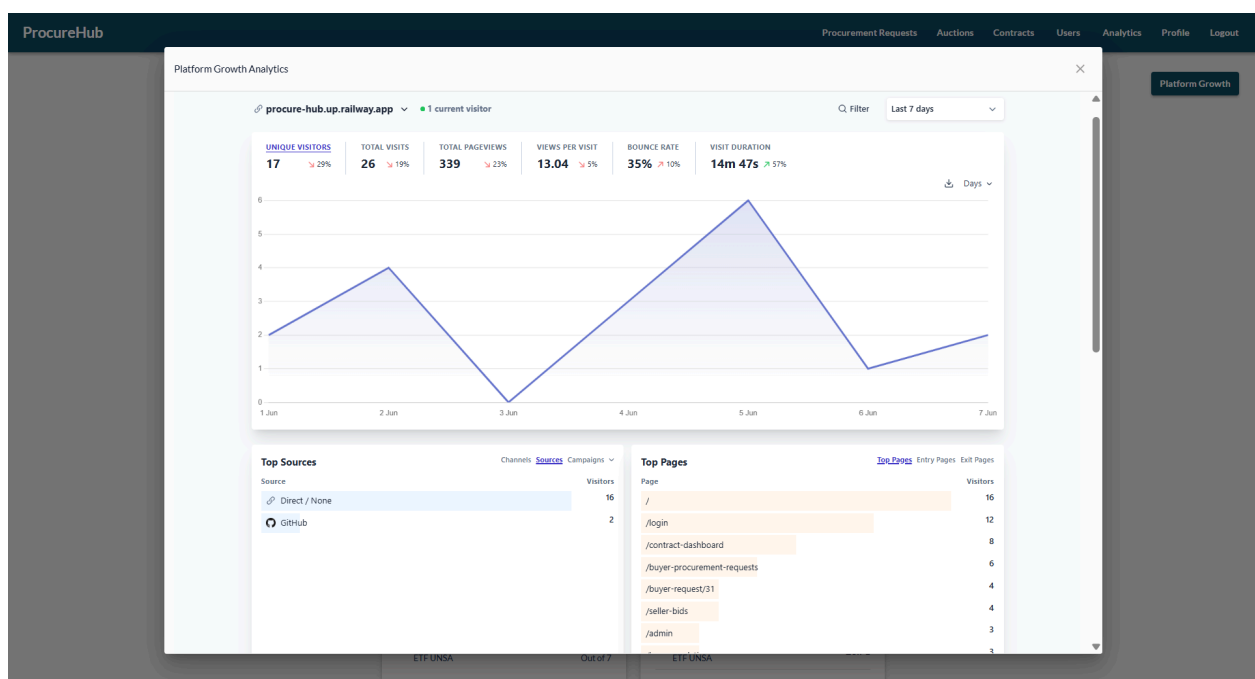

Analytics page 4

5. Request Analysis:

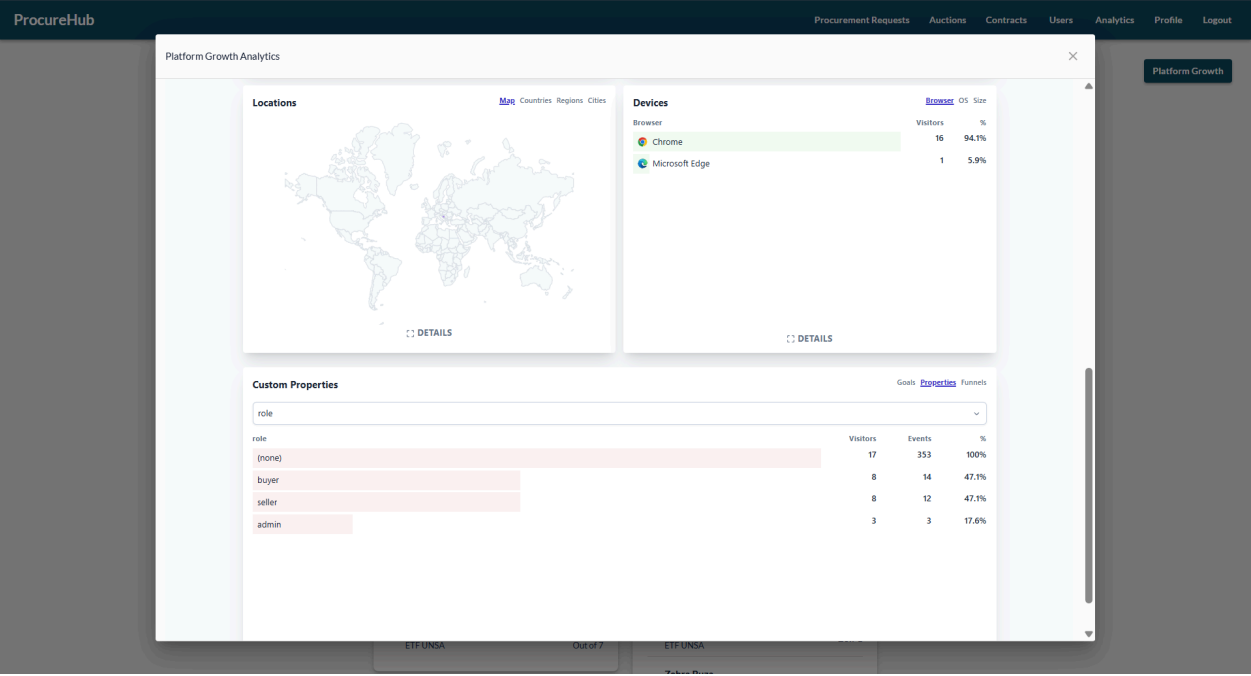

Request Status Distribution: number of procurement requests per status

Platform Growth

- **Website Visitor Analytics:** Includes a preview of analytics across different time periods, featuring:
 - **Top Sources:** Where users found the link to access the platform.
 - **Top Pages:** Most visited pages, entry points, and exit pages.
 - **Locations:** Geographic locations from which users accessed the platform.
 - **Devices:** Browsers, operating systems, and device types/sizes used to access the platform.
 - **Custom Analytics:** Admin-defined goals and properties such as user roles, error tracking, and specific user actions.

Seller Features

Seller Dashboard

After successfully logging in, the seller is provided with 8 different options on the dashboard, as seen in the picture below.

Seller dashboard

The options are:

1. **Procurement Request:** opens a window where the user can view all currently open procurement requests,
2. **Favorites:** opens a window where the seller can view all the favorite procurement requests.
3. **My Bids:** opens a window for monitoring all created bid proposals
4. **Auctions:** opens a window where the seller can monitor all auctions (scheduled, active, closed),

5. **Contracts:** opens a window where the user can view all the contracts that were awarded to that seller.
6. **Analytics:** opens a window where the user can view various analytics regarding past auctions, bids etc.
7. **Profile:** opens a window for viewing and editing account details.
8. **Logout:** logs the user out.

Procurement Request Dashboard

The procurement request dashboard has two sections:

1. **Filters**
2. **List of currently available requests**

Cleaning Services Contract Create Bid Proposal Follow

Procurement requests – seller dashboard

There are multiple **filtering options** available:

1. **Buyer type:** from a dropdown menu, choose the type of buyer that posted the request (for example, filtering to only show requests submitted by *Educational Institutions*)
2. **Category:** from a dropdown menu, choose the request category (for example, filtering to only show requests which fall into the *Consulting Services* category)
3. **Location:** type out the name of the desired location
4. **Budget min:** show all requests whose budget ranges include this value
5. **Budget max:** show all requests whose budget ranges include this value
6. **Deadline until:** filter by procurement request deadline

The screenshot displays the ProcureHub Seller Dashboard. On the left, a 'Filters' sidebar contains six numbered red boxes corresponding to the list above: 1. 'Buyer Type' dropdown, 2. 'Category' dropdown, 3. 'Location' text input, 4. 'Budget min' text input, 5. 'Budget max' text input, and 6. 'Deadline until' date picker. Below these are 'Apply filters' and 'Discard filters' buttons. The main area, titled 'Seller Dashboard - Procurement Requests', shows two request cards. The first card, 'Office Furniture Purchase', includes details like 'Need desks, chairs, and storage cabinets.', 'Category: Office supplies', 'Location: Sarajevo', 'Budget: 1000 \$ - 5000 \$', 'Deadline: Jun 15, 2025 2:00 AM', and 'Posted by: John Doe'. The second card, 'Cleaning Services Contract', is partially visible at the bottom. Both cards have 'Create Bid Proposal' and 'Follow' buttons.

Filtering options for procurement requests – seller dashboard

The list of currently available requests has three sections:

1. **Procurement request details:** includes all the relevant information for the request
2. **Create bid proposal:** button that takes the user to a new window for creating a new bid proposal (button is grayed out if the user has a previously created bid proposal for that request)
3. **Follow:** clicking this button adds the selected request to the *favorites* list

The screenshot displays the 'ProcureHub' interface. At the top is a dark blue navigation bar with the 'ProcureHub' logo and links for 'Procurement Requests', 'Favorites', 'My Bids', 'Auctions', 'Contracts', 'Analytics', 'Profile', and 'Logout'. The main content area is titled 'Seller Dashboard - Procurement Requests'. On the left, a 'Filters' sidebar contains dropdowns for 'Buyer Type' and 'Category', a text input for 'Location', two 'Budget ...' buttons, a 'Deadline until' button with a calendar icon, and 'Apply filters' and 'Discard filters' buttons. The main list shows two requests. The first, 'Office Furniture Purchase', is highlighted with a red box labeled '1'. It includes a description 'Need desks, chairs, and storage cabinets.', a 'Category' of 'Office supplies', 'Location' of 'Sarajevo', 'Budget' of '1000 \$ - 5000 \$', 'Deadline' of 'Jun 15, 2025 2:00 AM', and sections for 'Documentation', 'Items', 'Requirements', and 'Evaluation criteria', all marked as 'No items specified' or 'No requirements specified'. It also shows 'Posted by: John Doe', 'Created: May 25, 2025', and an 'Active' status. To the right of the title are two buttons: 'Create Bid Proposal' (labeled '2') and 'Follow' (labeled '3'). The second request, 'Cleaning Services Contract', is partially visible below.

Procurement request details

Create Bid Proposal

You can submit a proposal for a procurement request with a structured form, which allows the seller to formally offer services and products.

The image shows a 'Create Bid' form with the following elements:

- 1**: A text input field labeled 'Price *'.
- 2**: A text input field labeled 'Delivery Time *'.
- 3**: A large text area labeled 'Proposal *'.
- 4**: A dark red button with a white 'X' icon and the text 'Cancel'.
- 5**: A dark blue button with a white floppy disk icon and the text 'Save Draft'.
- 6**: A dark blue button with a white right-pointing arrow icon and the text 'Submit Bid'.

Create Bid Proposal

The **procurement proposal** has the following entries and buttons:

1. **Price:** enter your desired price for the procurement proposal
2. **Delivery Time:** enter the delivery time for the procurement proposal
3. **Proposal tex:** enter the text of the proposal
4. **Cancel:** button for canceling the proposal
5. **Save Draft:** save the draft proposal, which leads to the “My Bids” window
6. **Submit Bid:** submit the proposal, which leads to the preview bid window that shows you the information you input previously

Favorite Requests Page

Clicking the **Follow** button for a certain request adds it to the *favorites* list, thus also adding it to the *Favorites* page.

After navigating to the page, the user is presented with:

1. **Procurement request details:** all the relevant information regarding the followed request is presented to the user
2. **Create bid proposal:** the user has the option to create a bid proposal straight from the *Favorites* page (shown in the previous create bid proposal paragraph)
3. **Unfollow:** clicking this button removes the procurement request from the *favorites* list (user has the option to re-follow the request from the *procurement request* page)

The screenshot shows the 'Favorite Procurement Requests' dashboard in the ProcureHub application. The dashboard features a dark blue header with the 'ProcureHub' logo and navigation links: 'Procurement Requests', 'Favorites', 'My Bids', 'Auctions', 'Contracts', 'Analytics', 'Profile', and 'Logout'. The main content area is titled 'Favorite Procurement Requests' and displays a single request card for 'Office Furniture Purchase'. The card is outlined with a red border and contains the following details: a description 'Need desks, chairs, and storage cabinets.', category 'Office supplies', budget '1000 \$ - 5000 \$', location 'Sarajevo', deadline 'Jun 15, 2025 2:00 AM', and a status 'Active'. Two buttons, 'Create Bid Proposal' and 'Unfollow', are located in the top right corner of the card. Red numbers 1, 2, and 3 are overlaid on the image to highlight specific elements: 1 points to the request title, 2 points to the 'Create Bid Proposal' button, and 3 points to the 'Unfollow' button.

Active

Favorite procurement requests dashboard

Auctions Page

After a seller creates a bid proposal for a certain procurement request, and the buyer activates an auction for the request, that procurement request will show up on the seller's *auction* page.

The **auction page** consists of three main sections:

1. **Scheduled:** auctions that have yet to happen, the seller can only view the basic auction details
2. **Active:** auctions that are currently happening, the seller can view auction details and can also join the auction (**Join** button) to view the other bids coming in real time, alongside having the ability to submit new bids
3. **Closed:** auctions that have already finished, the seller can view auction details (**View History** button), the final placement of the seller's bid, as well as the seller's auction history.

The screenshot displays the ProcureHub Auction dashboard. At the top is a dark blue navigation bar with the ProcureHub logo and links for Procurement Requests, Favorites, My Bids, Auctions, Contracts, Analytics, Profile, and Logout. Below the navigation bar is a light gray header area with a message: "If any auction was supposed to start and the status is not updated, please refresh the page to update the auction status." Below this message are three red-outlined boxes, each representing a different auction status, labeled with red numbers 1, 2, and 3 above them.

1 Scheduled	2 Active	3 Closed

Auction dashboard – seller view

After joining an active auction, the seller can see:

1. **Auction details:** basic information regarding the auction, like the minimum increment of bid price changes, as well as the duration of the last call timer
2. **Auction leaderboard:** the seller can view his/her bid's position the leaderboard, the information regarding the other bids is hidden from the seller
3. **Timer:** shows how much time is left in the auction (sending a new winning bid when the timer is less than the *last call timer*, the timer resets to the value of the *last call timer*)
4. **Send bid button:** allows the user to create a new bid, the leaderboard is automatically updated with the new bid information
5. **Close details:** closes the real time auction window, returns the user to the *Auction page*

The screenshot shows the ProcureHub interface with a navigation bar at the top containing links for Procurement Requests, Favorites, My Bids, Auctions, Contracts, Analytics, Profile, and Logout. The main content area displays the 'Cleaning Services Contract' details, including the buyer 'John Doe (Demo Company)', a minimum increment of \$50, and a last call timer of 2 minutes. A timer shows 00:14:57 remaining. Two buttons are present: 'Send Bid' and 'Close Details'. Below this is an 'Auction Leaderboard' table with columns for Rank, Seller, Company, and Current Bid. The table shows the user's bid at Rank 1 with a current bid of \$950. Red numbers 1 through 5 are overlaid on the image to correspond with the list items: 1 points to the contract details, 2 to the leaderboard, 3 to the timer, 4 to the 'Send Bid' button, and 5 to the 'Close Details' button.

Real time auction dashboard

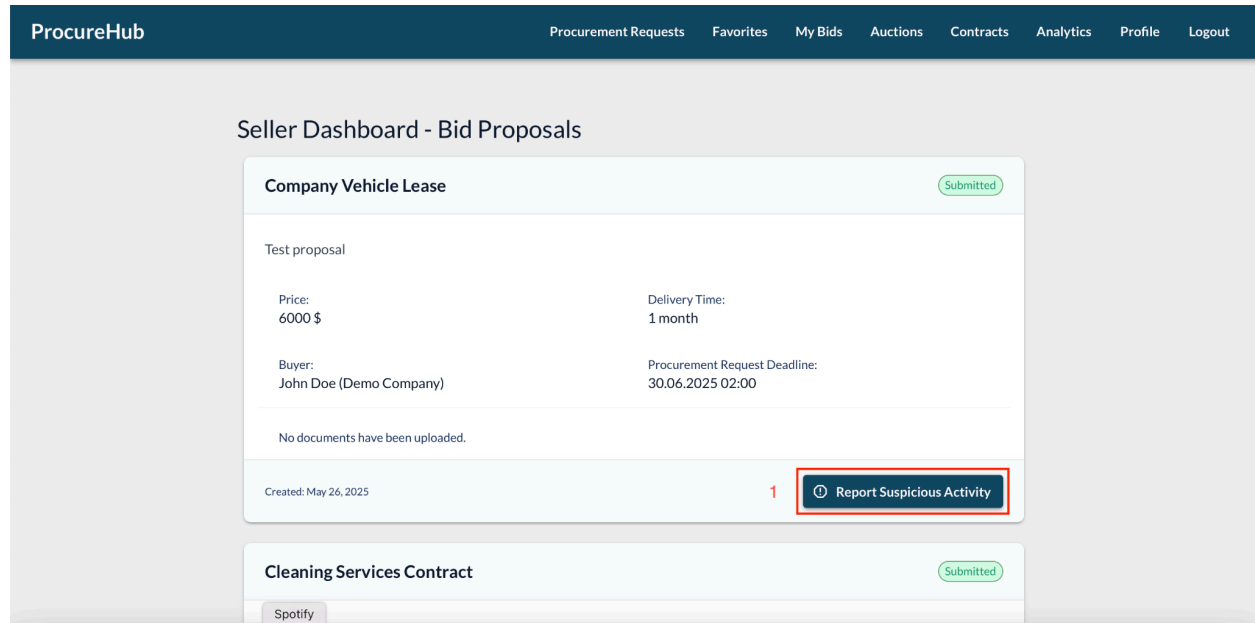

When an **auction is finished**, the user can see the history of the posted auctions, which also includes basic bid information for their bids.

Auction history window

Reporting Suspicious Activity

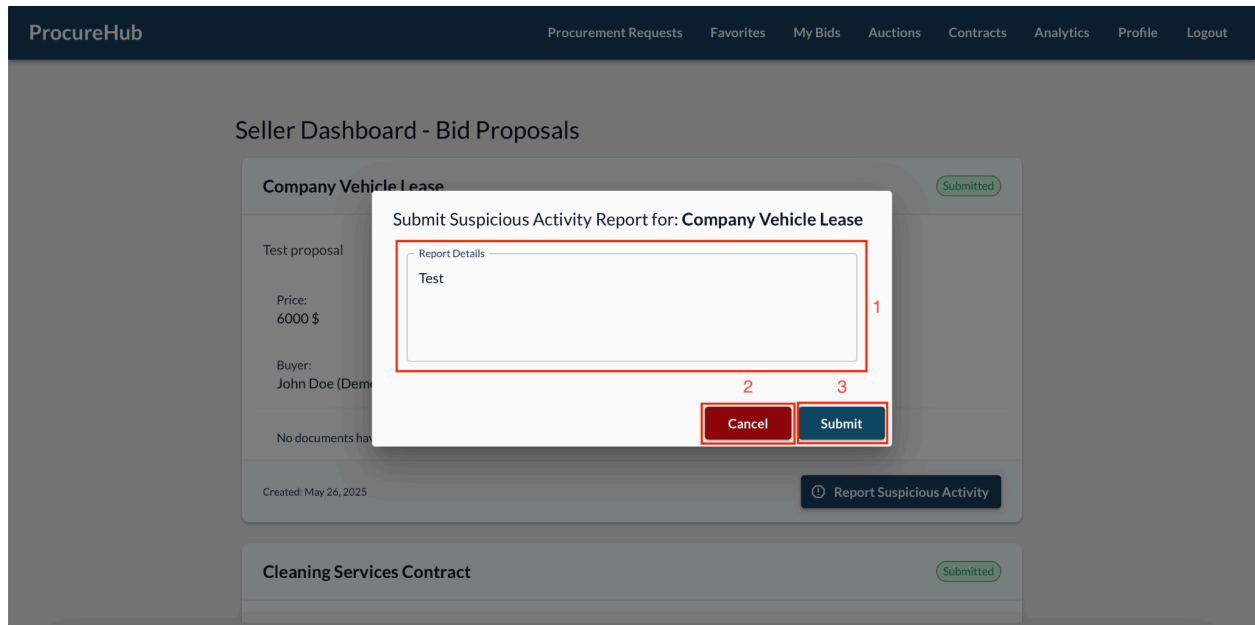

If a user has some doubts about the buyer after having already submitted a bid, the seller can report suspicious activity for that procurement request from the *My Bids* page.

Report suspicious activity button

The **Report Suspicious Activity window** includes:

1. **Report Details:** a text box where the seller can insert reasoning behind reporting the procurement request
2. **Cancel button:** cancels the sending of the report
3. **Submit button:** submits the report

Report suspicious activity window

After the report is submitted, that report will show up on the admin's dashboard and the seller has nothing more to do with it. **New reports for the same procurement request cannot be made**, as the report button will be greyed out and unclickable.

Contract Page

After a seller gets a contract awarded, that contract is added to the *contracts page*.

The contract page has two main sections:

1. **Filters**
2. **Contract details**

The screenshot shows the ProcureHub interface. The top navigation bar includes 'Procurement Requests', 'Auctions', 'Contracts', 'Analytics', 'Profile', and 'Logout'. The main content area is titled 'Contracts' and features a 'View Notifications' button. On the left, a 'Filters' sidebar (labeled 1) contains search fields for 'Buyer Name' and 'Seller Name', a 'Status' dropdown, and 'Award Date' range selectors, with a 'Clear Filters' button at the bottom. The main table (labeled 2) displays contract details with columns: Buyer Name, Buyer Company, Seller Name, Seller Company, Request, Bid, and Actions. A single contract is listed for John Doe, Seller Test, with a request for Software Licensing and a bid of Bid Proposal. The Actions column includes buttons for 'View Disputes', 'Add Dispute', and 'View Contract Info'. A pagination bar at the bottom shows '« Prev', '1', and 'Next »'.

Buyer Name	Buyer Company	Seller Name	Seller Company	Request	Bid	Actions
John Doe		Seller Test	Test	Software Licensing	Bid Proposal	View Disputes Add Dispute View Contract Info

Contracts – seller dashboard

The available filtering options are:

1. **Buyer name:** Filter by the name of the buyer that posted the related procurement request
2. **Seller name:** In the case of the seller, the seller name associated with the contract will always be the same
3. **Status:** The contracts can be filtered by the three available contracts statuses (issued, edited, signed) or by all
4. **Award date:** Set the range of dates between which the contract was awarded
5. **Clear filters button:** Resets all of the filters to their default values

The screenshot shows the ProcureHub interface. The top navigation bar includes 'Procurement Requests', 'Auctions', 'Contracts', 'Analytics', 'Profile', and 'Logout'. The main section is titled 'Contracts' and includes a 'View Notifications' button. On the left, there is a 'Filters' sidebar with the following elements:

- 1. Buyer Name search box with placeholder 'Enter buyer name'.
- 2. Seller Name search box with placeholder 'Enter seller name'.
- 3. Status dropdown menu.
- 4. Award Date section with two date input fields, both containing '06/08/2025'.
- 5. Clear Filters button.

The main table displays contract information:

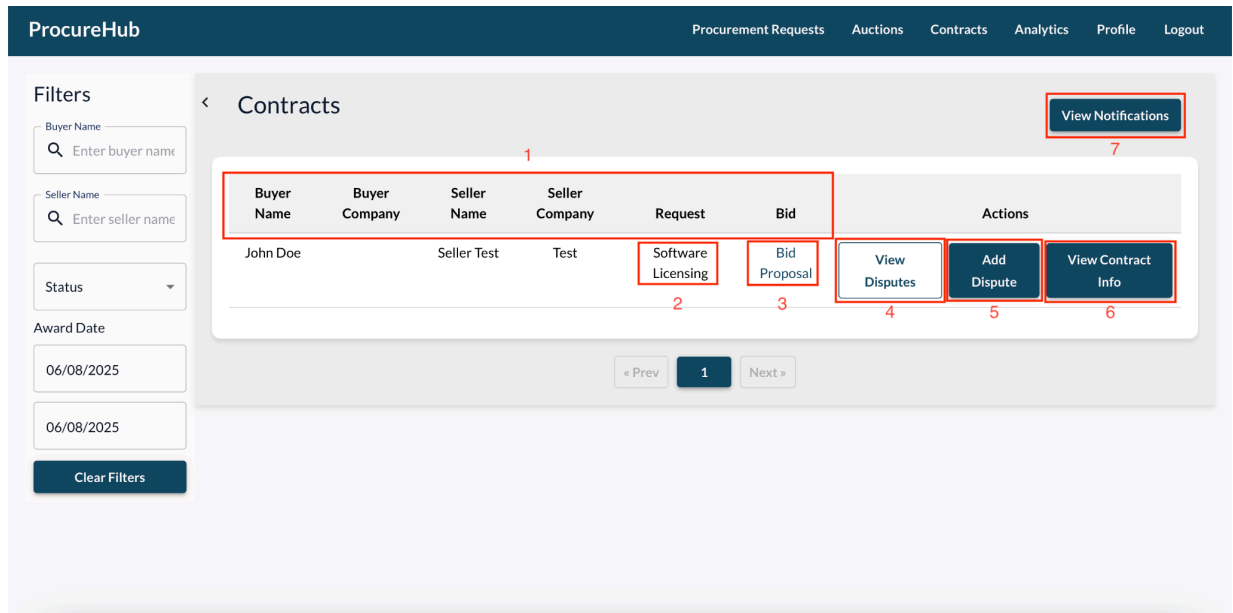

Buyer Name	Buyer Company	Seller Name	Seller Company	Request	Bid	Actions
John Doe		Seller Test	Test	Software Licensing	Bid Proposal	View Disputes Add Dispute View Contract Info

Below the table is a pagination bar with '« Prev', a page number '1', and 'Next »'.

Available filters for list of contracts

On the **Contracts page**, the seller can see:

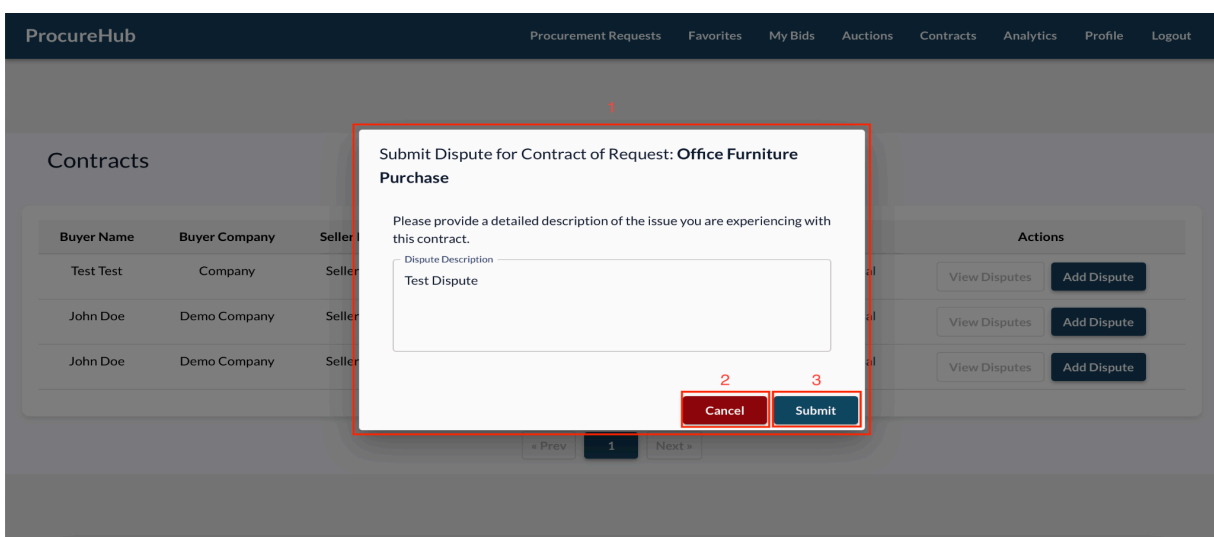

1. **Basic Contract Details:** basic information regarding the contract (buyer name and company, seller name and company, associated bid and request)
2. **Request name:** clicking on the name of the request opens up a pop-up window which includes the details of the procurement request associated with the contract
3. **Bid name:** clicking on the name of the bid opens a pop-up window for viewing the details of the associated bid
4. **View disputes button:** shows all the disputes associated with the contract
5. **Add dispute:** allows the user to create a dispute regarding the contract
6. **View contract info button:** Opens a pop-up window which includes detailed information regarding the contract
7. **View notifications button:** Opens a slide-out panel that includes notifications for all of the available contracts

Contracts page – seller dashboard

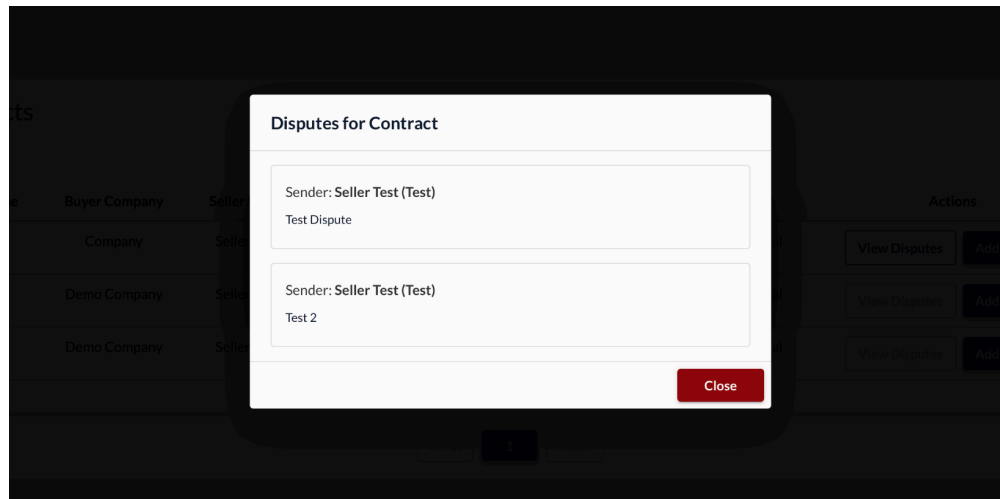

The **Create dispute window** is very similar to the *Reporting suspicious activity window*, it includes a:

1. **Dispute description:** the seller can provide an explanation of the dispute
2. **Cancel button:** closes the dispute windows
3. **Submit button:** submits the contract dispute

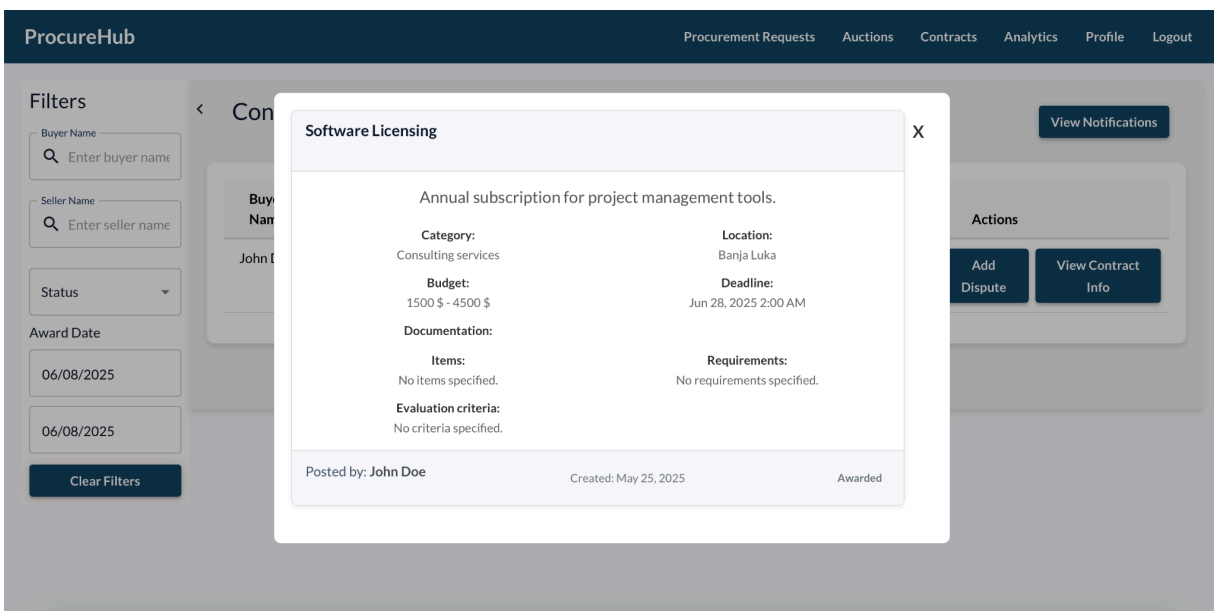

Create new contract dispute window

After a dispute is created, it can be viewed, alongside all other disputes related to the contract, by using the **View Disputes** button.

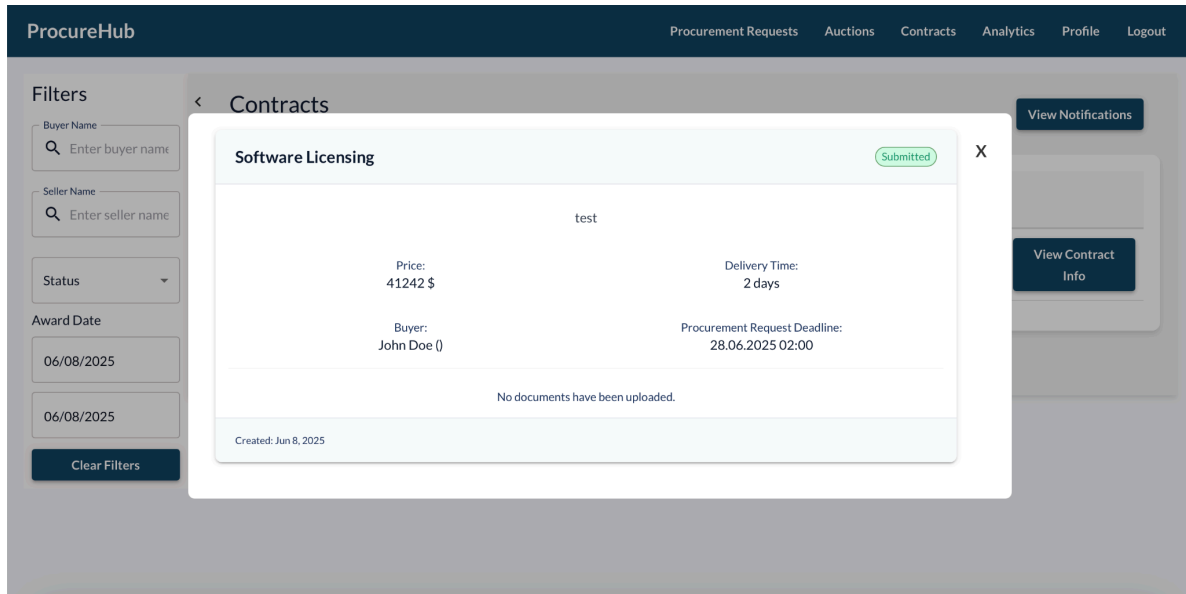

View contract disputes window

The **Request details windows** and the **Bid details window** are opened after the corresponding request/bid name is clicked and they include all of the relevant information which has been mentioned earlier in the document.

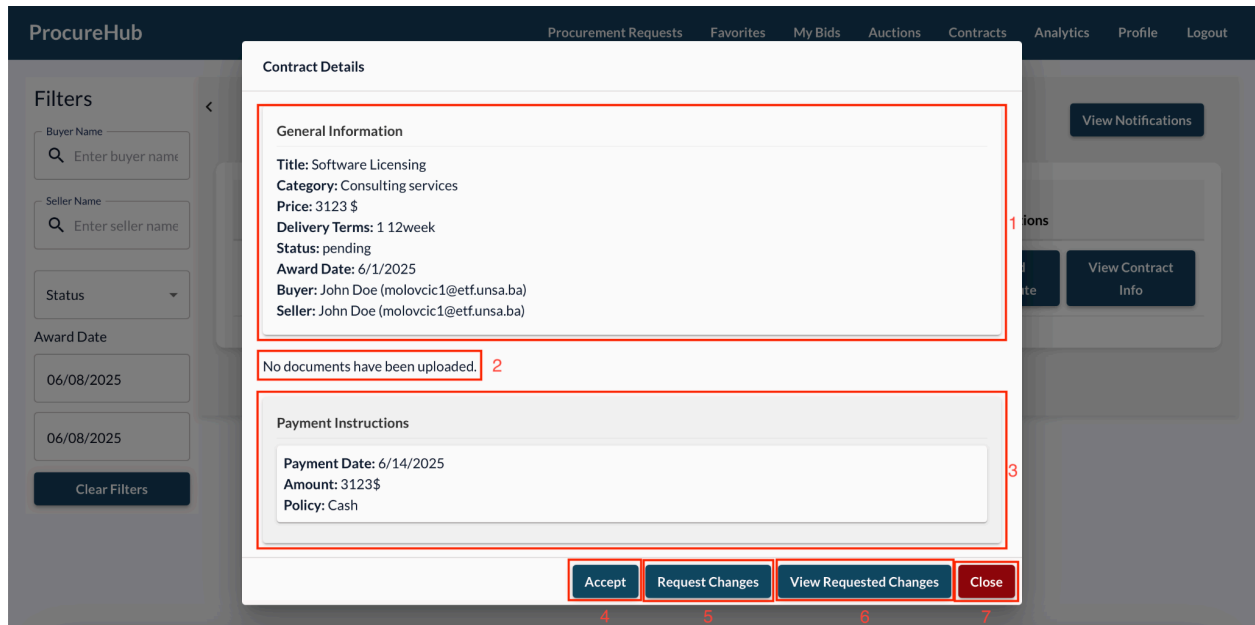

Procurement request details pop-up window

Bid details pop-up window

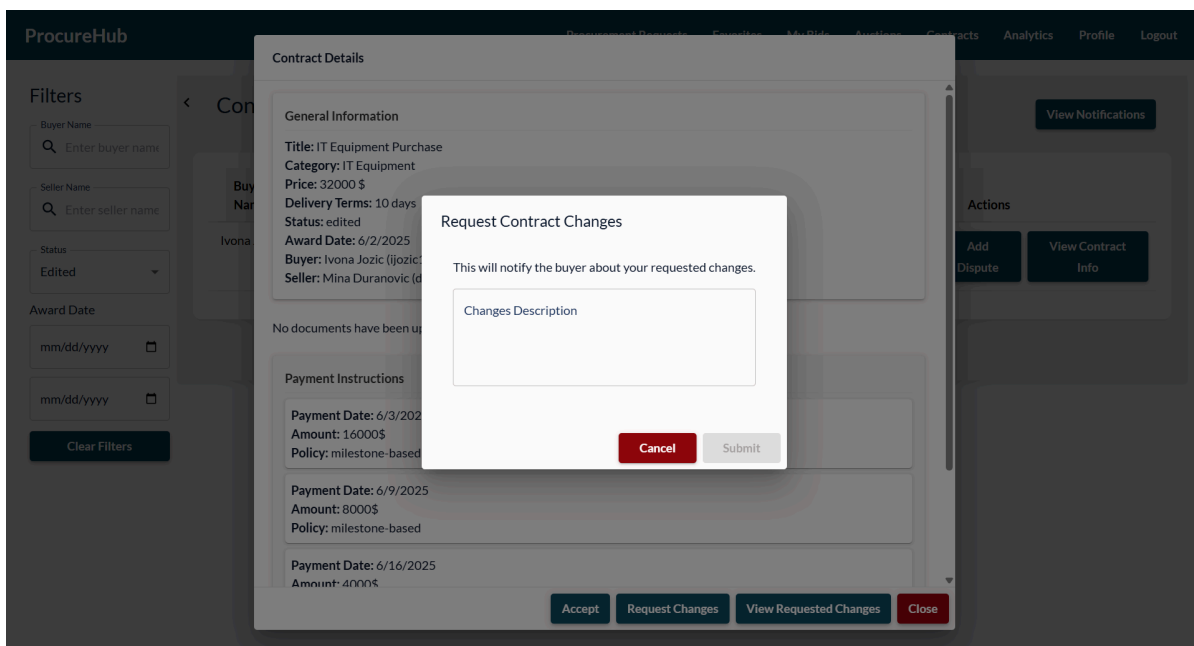

The **View contract info** button opens up a pop-up window which includes:

1. **Contract details:** all of the relevant information regarding the selected contract is displayed here
2. **Contract documents:** If any documents are associated with the contract, they would be displayed here
3. **Payment instructions:** includes details about how the payment of the contract is done
4. **Accept button:** accepts the offered contract (not visible if the contract status is 'accepted')
5. **Request changes button:** opens up a window where the seller can propose a change for the contract (not visible if the contract status is 'accepted')
6. **View requested changes button:** opens up a window where all requested changes are presented
7. **Close button:** closes the contract details window

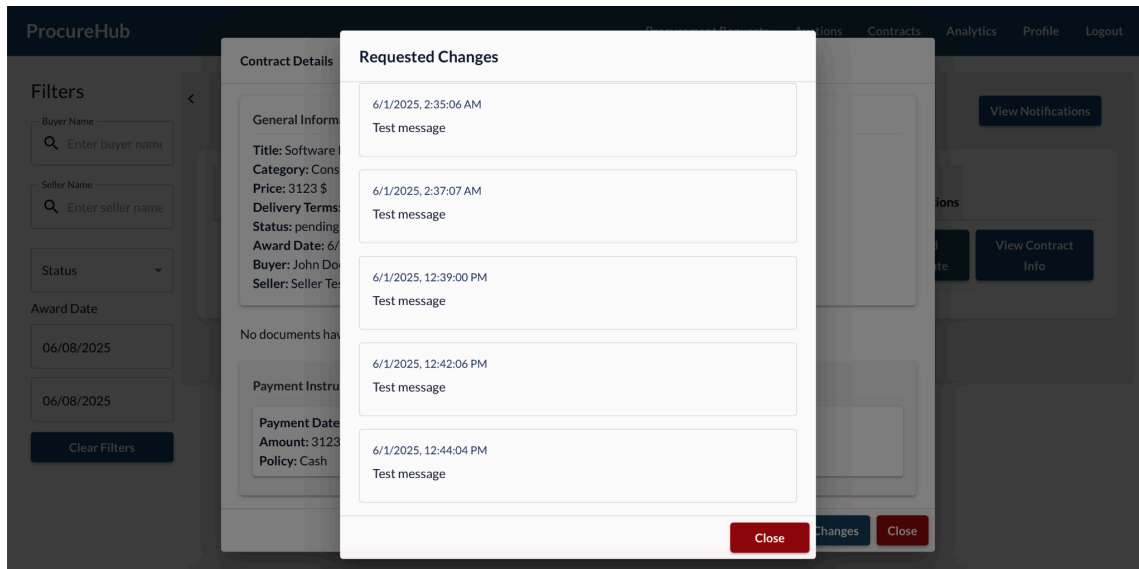

Contract details pop-up window

Clicking on the **Request changes** button opens up a window where the seller is presented with a textbox where the details of the requested change are stated.

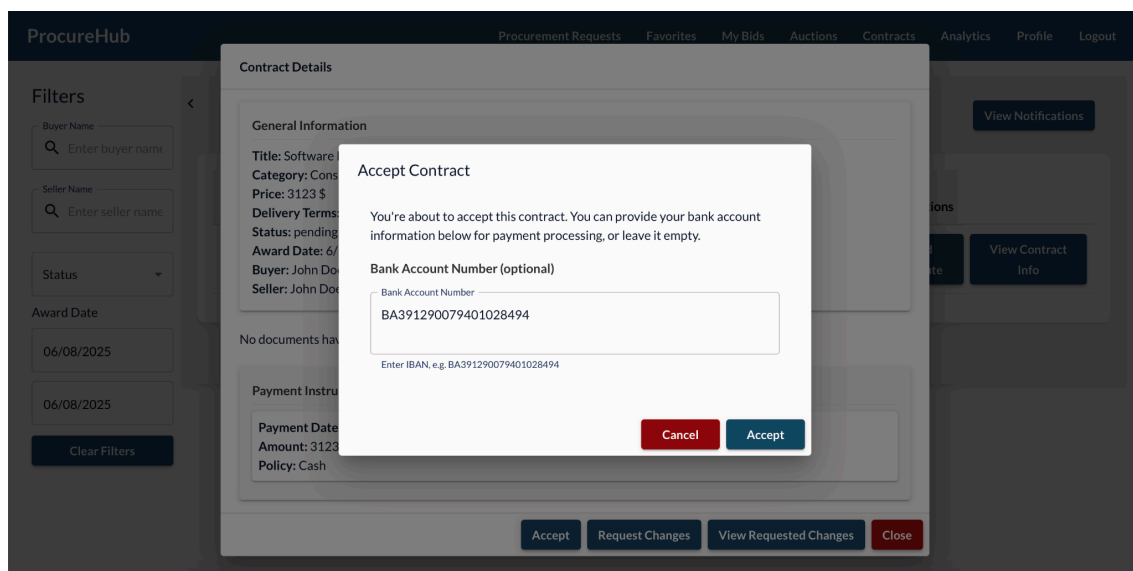

Create change request window

Clicking on the **View requested changes button** opens up a pop-up window which shows all of the changes requested for the selected contract, including the message of the change request, as well as the time when it was posted.

View change requests window

Clicking the **Accept button** opens up a new pop-up window where the seller can (but is not required to) insert a bank account number for the payment of the contract. If the seller does choose to input a number, it needs to be a valid IBAN number.

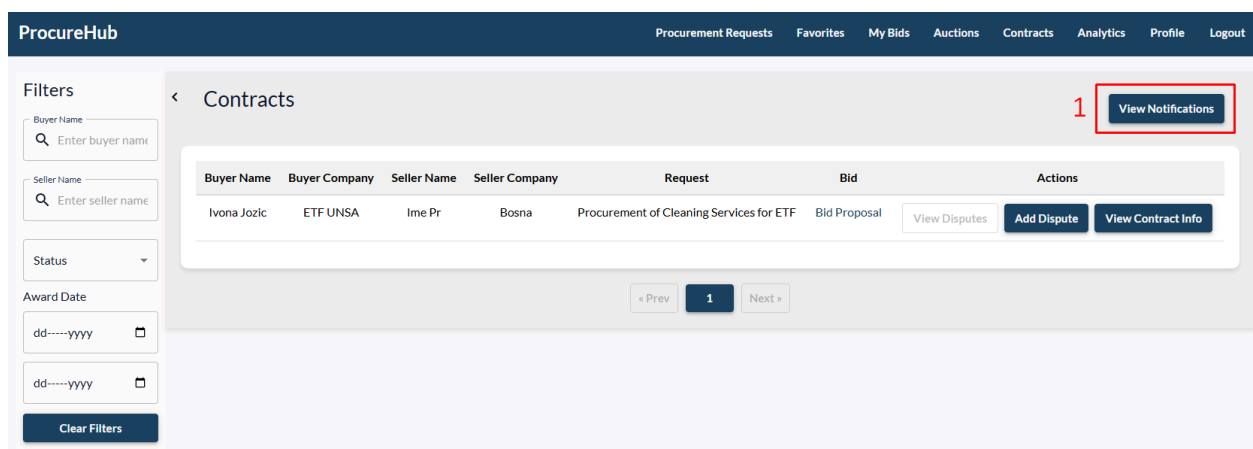

Accept contract window

Notifications

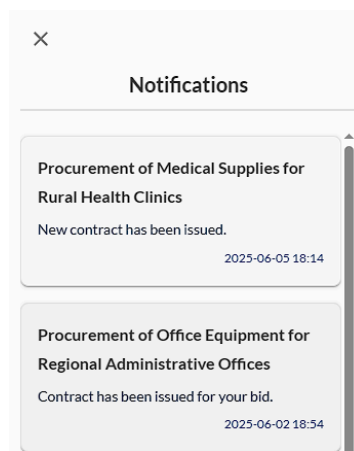

After a contract is issued, sellers receive timely updates about any activity related to the contract through both the application interface and email.

1. Clicking on the **View Notifications** button, on the contract page, opens up a slide-out notification panel, which includes information about all the seller's contracts (issuance of a new contract, edited contracts).

Contract page

2. **Side panel** showing all the notifications related to the contracts:

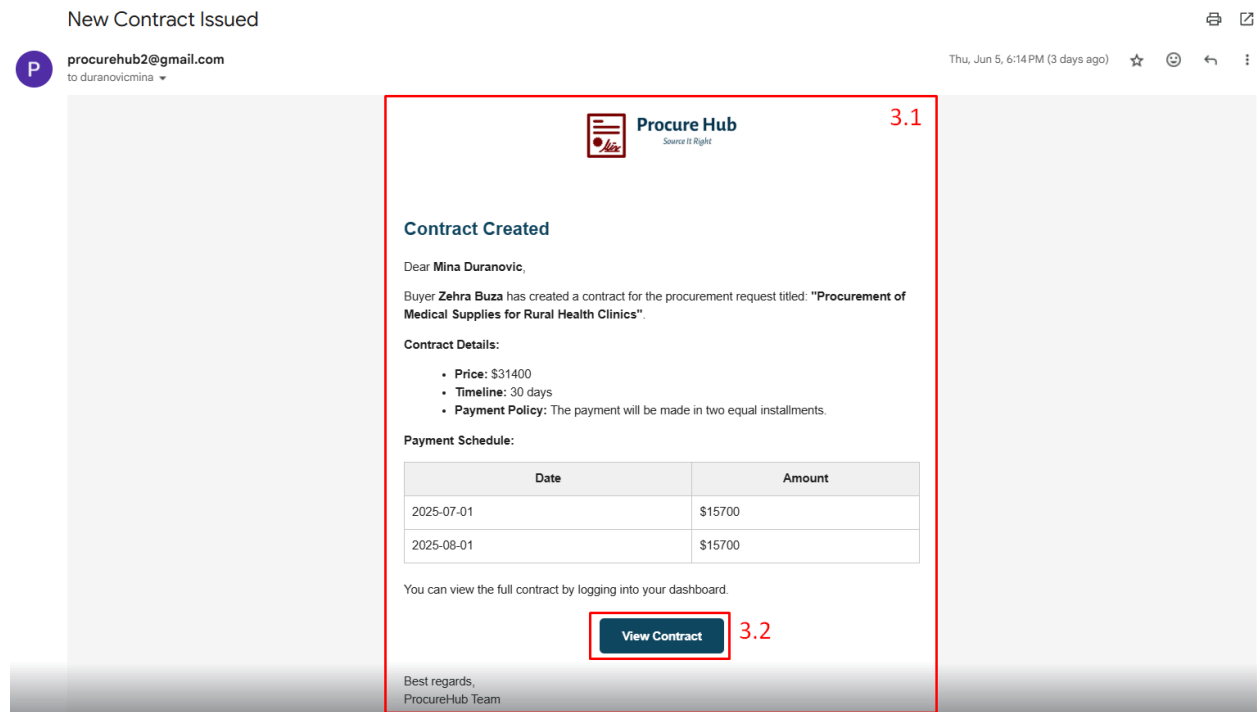

Seller's Contract notification panel

When the buyer issues a new contract, the seller receives a mail notification at their email address.

3.1 **New Contract Issued:** Informs the recipient that the buyer has issued a new contract

3.2 **View Contract:** Action button that redirects the recipient to the contracts page where they can view the full contract and more details.

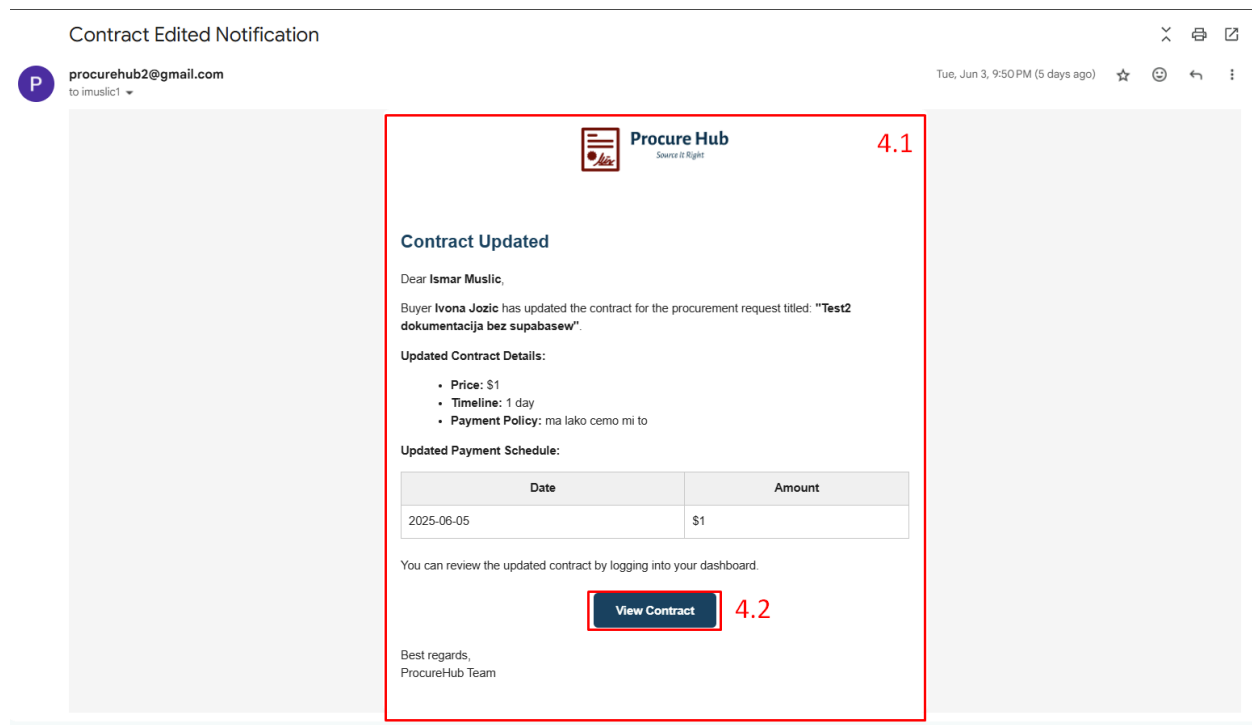

Notification mail for new contract issued

When the buyer edits the contract, the seller receives a mail notification at their email address.

4.1 Contract Edited Notification: Informs the recipient that the buyer has edited the contract

4.2 View Contract: Action button that redirects the recipient to the contract page, where they can view the full contract and more details.

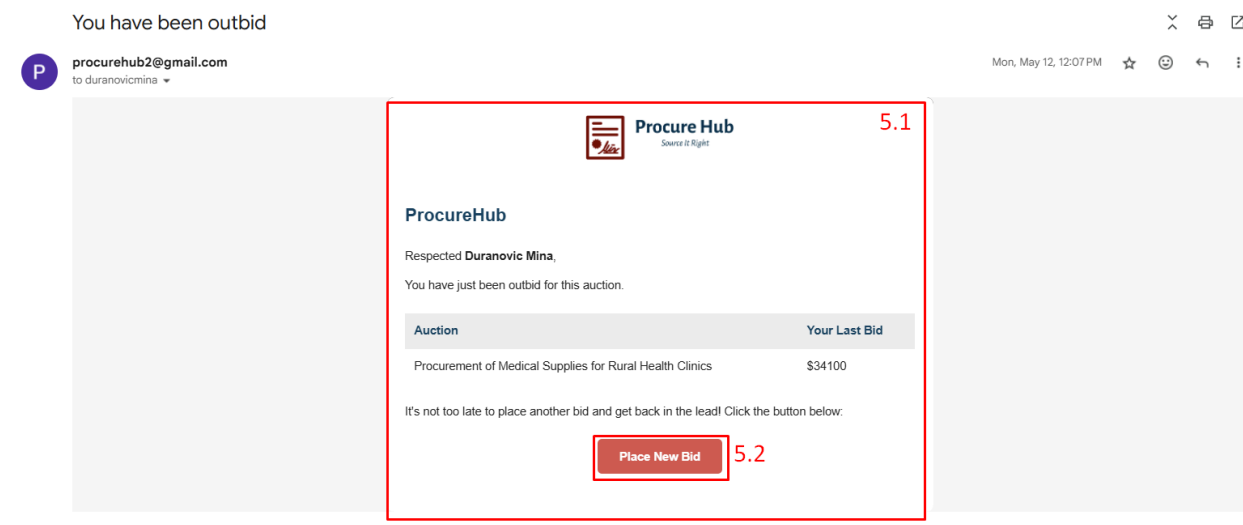

Notification mail for contract edited

When someone outbids the seller, during the auction, they receive a mail notification at their email address.

5.1 **Outbid Notification:** Informs the recipient that he has been outbid for the auction

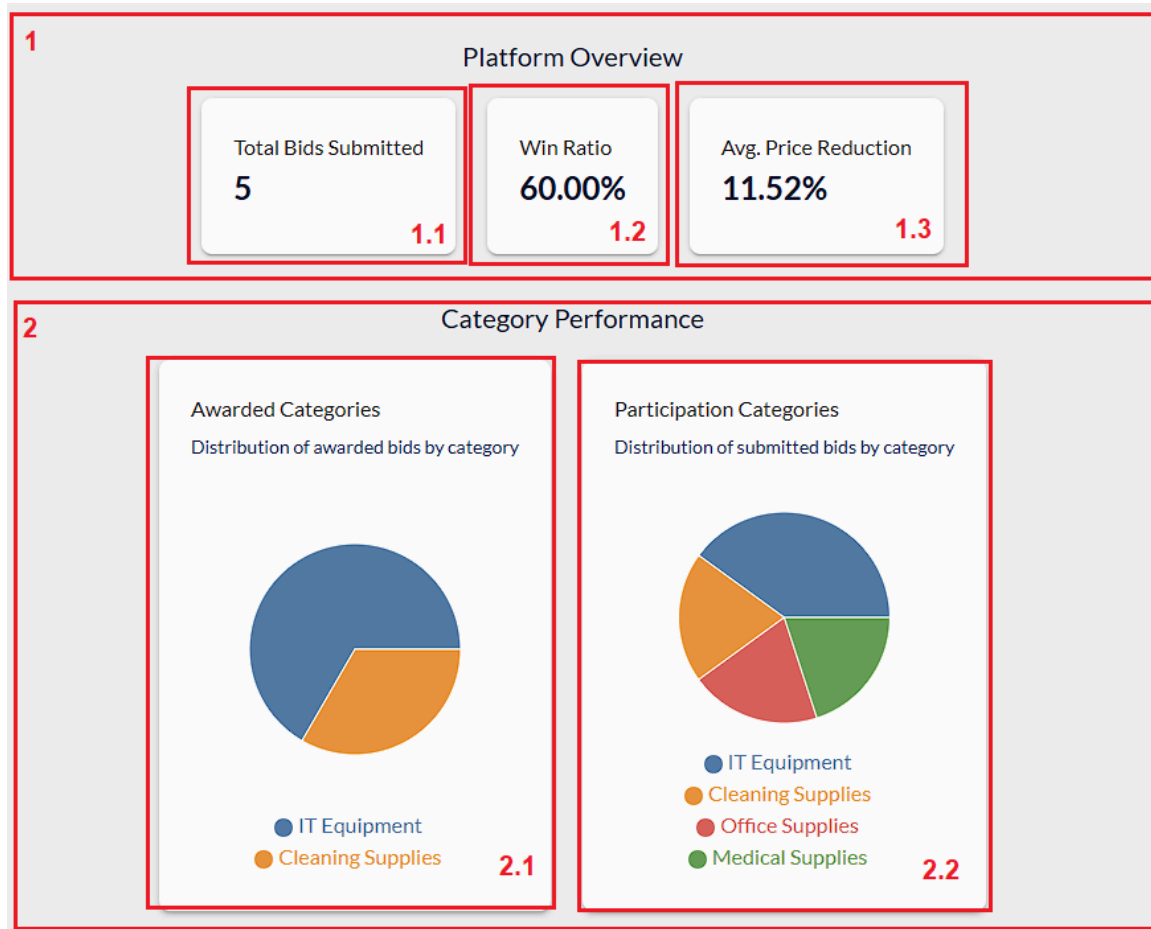

5.2 **Place Bid:** Action button that redirects the recipient to the auction page where they can place a new bid.

Notification mail for auction outbid

Analytics & Performance Tracking

Seller gets insight into the bids, performance of the auctions, and tracking, analytics tracking etc. It's divided into 4 different sections with different performance statistics and analytics that can be further analyzed.

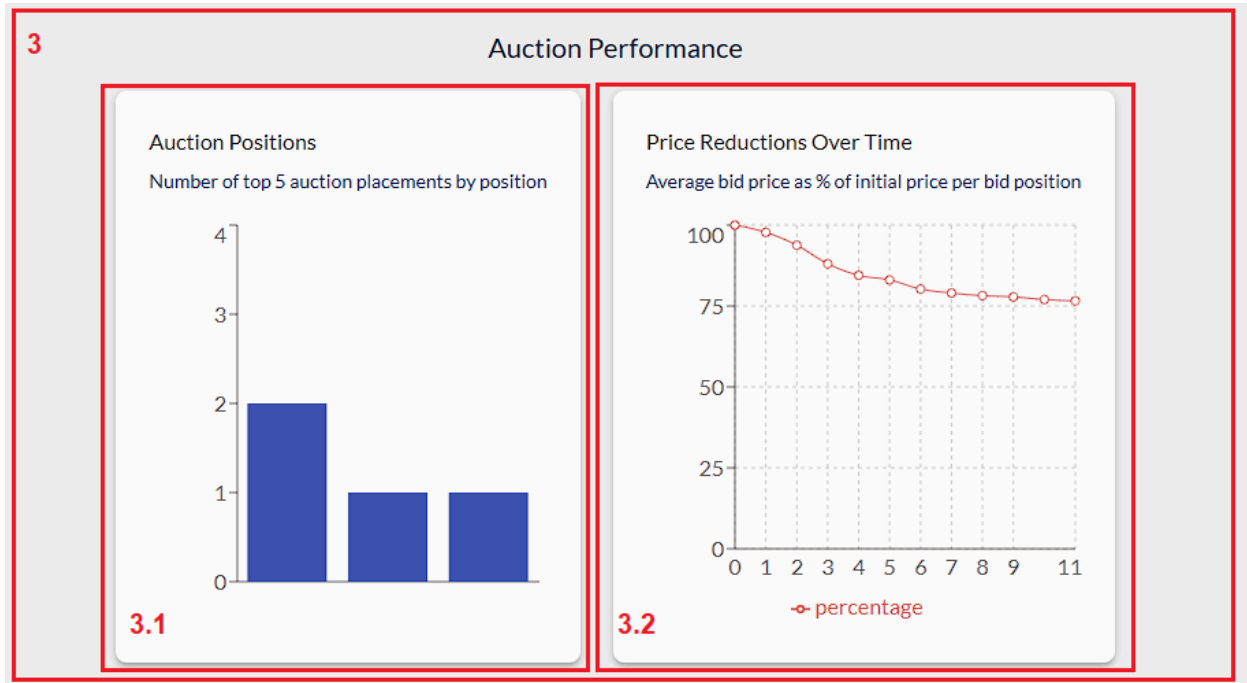

Analytics page – Platform Overview and Category Performance

- 1. Platform Overview:** Overview of the bids and statistics of the details of those bids
 - 1.1 Total Bids Submitted:** the number of total bids submitted
 - 2.2 Win Ratio:** the percentage of wins
 - 3.3 Average Price Reduction:** the percentage of the average price reduction

2. Category performance

1.1 **Awarded Categories:** distribution of awarded bids by category

2.2 **Participation Categories:** distribution of submitted bids by category

Analytics page – Auction performance

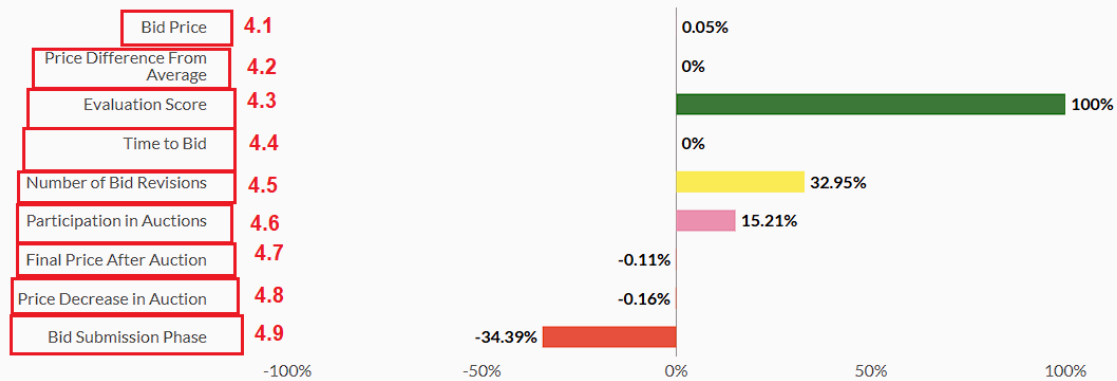

3. **Auction Performance:** a histogram of auction positions and a diagram of the price reductions over time

3.1 **Auction positions:** a histogram of the top 5 auction placements by position

3.2 **Price Reductions Over Time:** diagram for the average bid price percentage of the initial price per bid position

Attributes Percentage

Regression coefficients showing the impact of bidding factors on seller outcomes

Analytics page – Performance Attributes Overview

4. **Performance Attributes Overview:** attributes percentage that shows the regression coefficients of the bidding factors on seller outcomes, which are the following:

4.1 **Bid Price:** The price of the submitted bid proposals

4.2 **Price Difference From Average:** Difference between the seller's bid price and the average price of other bids

4.3 **Evaluation Score:** Evaluation score given by the buyer

4.4 **Time to Bid:** The time to bid after the procurement request has been posted

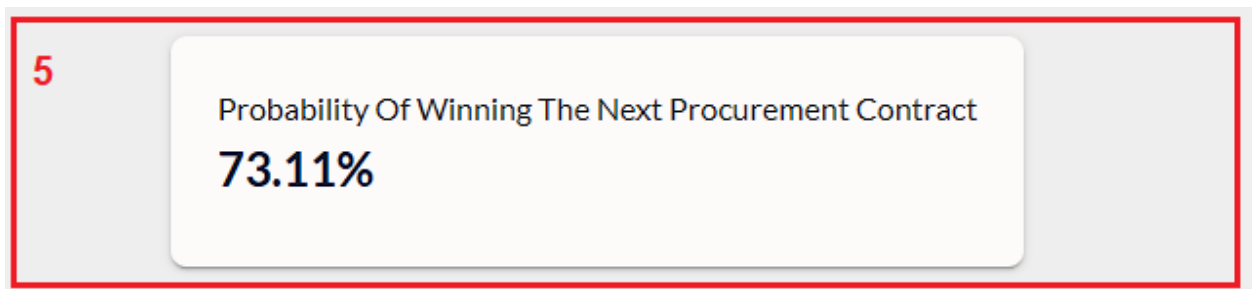

4.5 **Number of Bid Revisions:** The number of bids places in auctions

4.6 **Participations in Auctions:** The percentage of participations in the auction

4.7 **Final Price After Auction:** The final price after the auction was closed

4.8 **Price Decrease in Auction:** The percentage of the price that decreased during the auction

4.9 **Bid Submissions Phase:** Average time between bids during auction

Analytics page – Probability of winning the next procurement contract

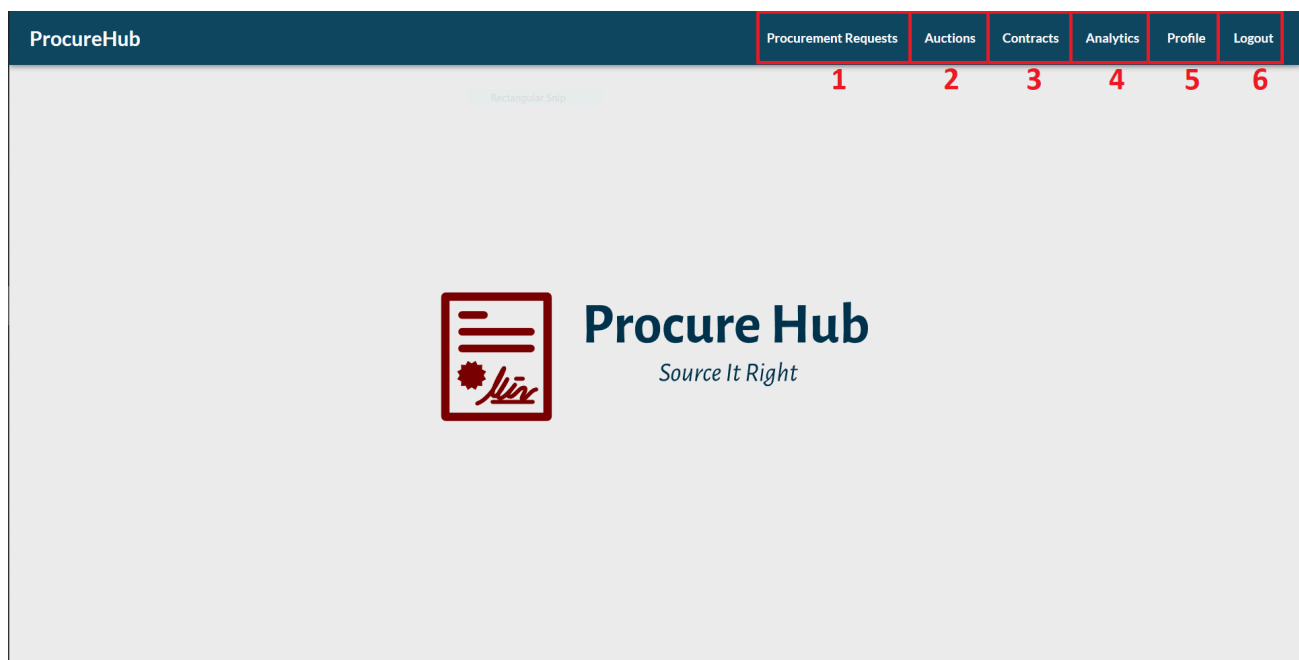

5. **Probability Of Winning The Next Procurement Contract:** a percentage of the evaluation detailing a probability of winning the next procurement contract

Buyer control

Buyer panel

On the buyer panel landing page you will find 6 buttons:

1. **Procurement requests:** opens a window for monitoring all procurement requests
2. **Auctions:** opens a window for monitoring all scheduled, active, and closed auctions
3. **Contracts:** opens a window for monitoring all contracts
4. **Analytics:** opens a window for monitoring buyer's analytics
5. **Profile:** opens the profile window
6. **Logout:** log out of the buyer account

Buyer panel

Procurement requests page

This page contains:

1. A **section with buyer's procurement requests** and some basic information. Also contains a **View** button (1.1) that opens a page with all the request information. Based on the status of the request, the bottom of the page will be different.
2. **A set a six buttons** the are used filter the requests based on their status
3. **New request** button: opens the create new request page with input fields for all the request information.

Procurement requests page

Create a new procurement request

To initiate a new procurement request, the buyer should click the **New Request** button **on the Procurement Request page**. This action will open a form designed to capture all necessary information related to the new procurement request.

The form includes various input fields, as shown in the images below.

At the bottom of the form, there are three action buttons:

3.1 **Cancel**: Discards the current process of creating a new request or editing an existing one.

3.2 **Save Draft**: Saves the request with a **"Draft" status**, allowing it to be edited and submitted at a later time.

3.3 **Submit Procurement**: Finalizes and submits the procurement request for further processing.

The screenshot shows the 'Create Procurement' form in the ProcureHub application. The form is a white box with a red border, set against a dark blue background. A red number '3' is placed to the left of the form. The form contains the following fields: 'Title' (text input), 'Description' (text input), 'Location' (text input), 'Deadline' (text input with a calendar icon), 'Budget Mtu' (text input), 'Budget Use' (text input with a dropdown arrow), 'Category' (text input with a dropdown arrow), 'Item' (text input with a dropdown arrow), 'Item Title' (text input), 'Item Description' (text input), 'Quantity' (text input), and an 'ADD ITEM' button at the bottom.

Procurement requests preview

The buyer can view all of their procurement requests, categorized by status: Draft, Active, Awarded, and Closed.

When a procurement request is in **Draft** status, the buyer can view all details of the request. Three action buttons are available:

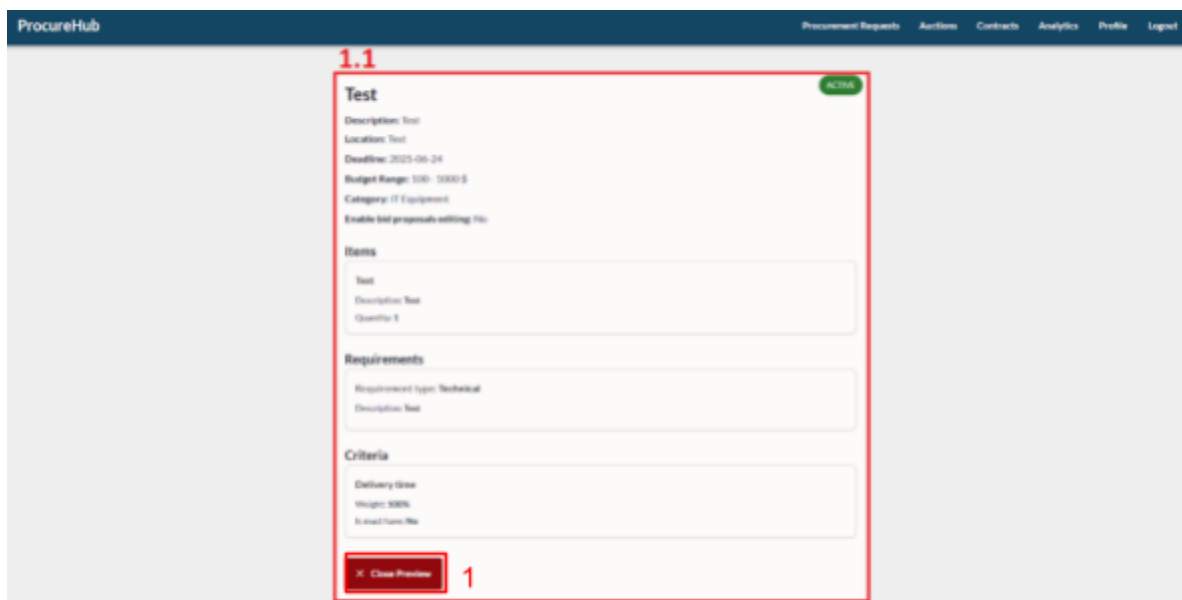

1. **Edit Procurement:** Open the form for editing a procurement request (similar to the one used for creating procurement requests), allowing the buyer to modify the current draft.
2. **Post Request:** Publishes the procurement, changing its status to **Active** and making it visible to sellers.
3. **Close Preview:** Closes the preview and returns the buyer to the list of procurement requests.

Procurement requests preview – status “Draft”

When a procurement request is in **Active** status, the buyer can view all details of the request. One button is available:

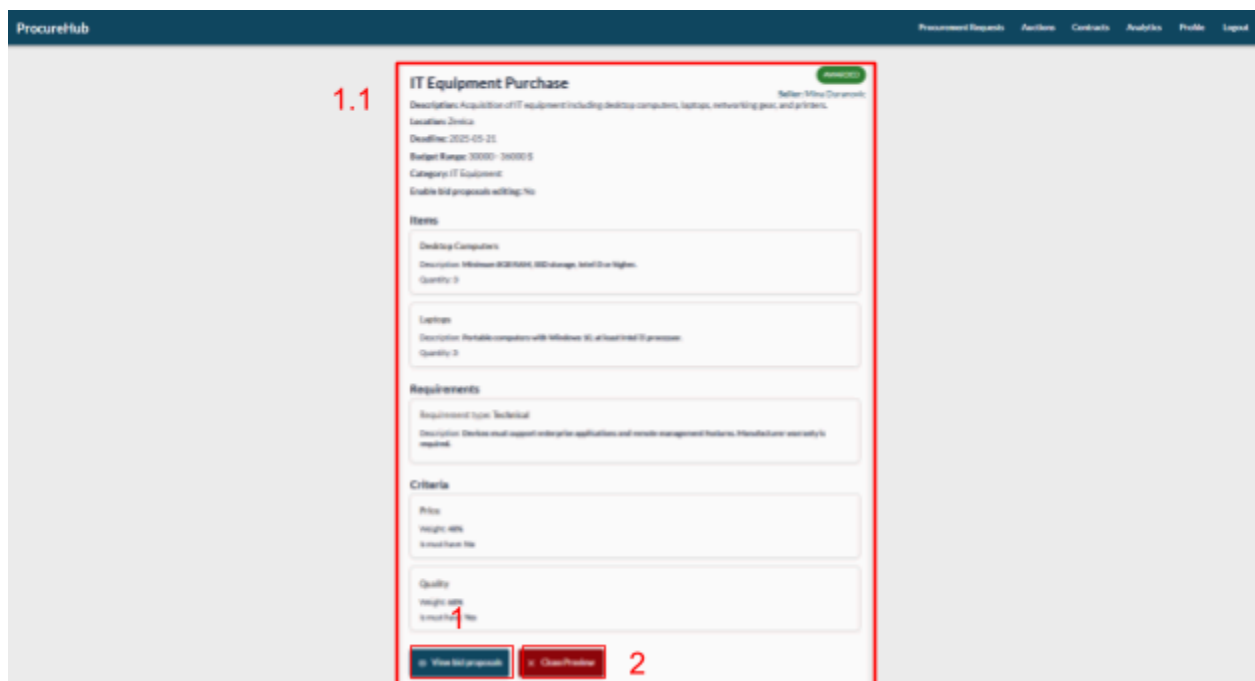

1. **Close Preview:** Closes the preview and returns the buyer to the list of procurement requests.

Procurement requests preview – status “Active”

When a procurement request is in **Awarded** status, the buyer can view all details of the request. Two action buttons are available:

1. **View Bid Proposals:** opens a list of all submitted bids for the request, allowing the buyer to evaluate them if desired.
2. **Close Preview:** closes the preview and returns the buyer to the list of procurement requests.

Procurement requests preview – status “Awarded”

When a procurement request is in **Closed** status, the buyer can access the following options:

1. **View Bid Proposals:** opens a list of all submitted bids for the request, allowing the buyer to evaluate them if desired.

2. **Close Preview:** closes the preview window without displaying the submitted bids.

If the buyer clicks on **View Bid Proposals** (1), the full list of submitted bids will be displayed along with the following option:

- 2.1. **Evaluate:** Opens the evaluation form for the selected bid if the bid is unevaluated. If the bid is evaluated there will be an **Award Bid and Generate Contract** button.

Upon clicking the **Evaluate** button, the buyer can assign scores to the bid based on **criteria specified while creating the procurement request**. The scores are between 1 and 10. In this example, criteria is:

- 3.1. Price: a score from 1 to 10
- 3.2. Delivery Time: a score from 1 to 10

After entering the scores, the buyer can click:

- 3.3. **Submit Evaluation:** submits the evaluation and returns the buyer to the bid proposals dashboard, where the individual scores and the calculated average score for the evaluated bid will be displayed.
- 3.4. **Cancel:** Allows the buyer to exit the evaluation process without submitting any scores, in case they change their mind.

Contracts page

1. Contains a **list of contracts** with some basic informations and one button:
 1. **Bid proposal**: shows the bid details
 2. **View Disputes**: shows received disputes from the parties in the contract
 3. **Add Dispute**: opens a form for dispute submission
 4. **View Contract Info**: shows information about the contract
 5. **Request title**: shows the procurement request details
2. **View Notifications**: opens notifications related to contracts – issuance of a new contract, contract change requests submitted by sellers, edited contracts, and accepted contracts.
3. At the bottom of the page there are **navigation buttons** for the contract list.

Contracts page

This page also contains a **Filters section** with all the filtering options for the contracts.

1. **Buyer Name:** In the case of the buyer, the buyer name associated with the contract will always be the same.
2. **Seller Name:** Enter the seller name for the contract you are looking for.
3. **Search by status:** all, draft, issued, edited or signed.
4. **Award date:** select the range of date in which the contract is awarded.
5. **Clear filters:** resets all filters to blank

The screenshot shows the ProcureHub interface. The top navigation bar includes 'Procurement Requests', 'Auctions', 'Contracts', 'Analytics', 'Profile', and 'Logout'. The main section is titled 'Contracts' and includes a 'View Notifications' button. On the left, there is a 'Filters' sidebar with the following elements:

- Buyer Name:** A search input field with a magnifying glass icon and placeholder text 'Enter buyer name' (labeled 1).
- Seller Name:** A search input field with a magnifying glass icon and placeholder text 'Enter seller name' (labeled 2).
- Status:** A dropdown menu (labeled 3).
- Award Date:** Two date input fields with calendar icons and placeholder text 'mm/dd/yyyy' (labeled 4).
- Clear Filters:** A button at the bottom of the filter section (labeled 5).

The main table displays contract details:

Buyer Name	Buyer Company	Seller Name	Seller Company	Request	Bid	Actions
Zahra Buzz	Company	Mina Duranovic	Procure Hub	Procurement of Medical Supplies for Rural Health Clinics	Bid Proposal	View Disputes Add Dispute View Contract Info

At the bottom of the table, there is a pagination control showing '1' and 'Next'.

Contracts page – Filter Section

The screenshot shows a modal window titled 'Disputes for Contract' with a red border. The modal contains two sections of text:

Sender: Ivona Jozic (ETF UNSA)

We are filing a formal dispute regarding this Contract with the seller Mina Duranovic. The agreed delivery deadline was clearly stated in the contract, yet the goods/services were not delivered on time. Despite multiple attempts to contact the seller for updates, we received no clear communication or explanation for the delay. This delay has caused significant disruptions to our internal processes and affected other dependent projects. We are requesting an immediate explanation from the seller, along with a revised and binding delivery schedule. If the seller fails to respond within 5 business days, we reserve the right to seek compensation as outlined in the contract terms.

Sender: Mina Duranovic (Procure Hub)

We acknowledge receipt of the dispute filed regarding Contract and would like to sincerely apologize for the inconvenience caused by the delayed delivery. The delay was due to unforeseen logistical challenges with our third-party supplier, which were unfortunately beyond our immediate control. However, we understand the importance of timely delivery and fully recognize the impact this has had on your operations. We are actively resolving the issue and can confirm that the delivery will be completed no later than [insert revised date]. Additionally, we are implementing internal measures to prevent such occurrences in the future. We value our cooperation with ETF and are committed to restoring your trust. Please let us know if there is anything further we can do to mitigate the impact caused by this delay.

A 'Close' button is located at the bottom right of the modal.

Dispute preview

This is the form for creating a new contract dispute and it includes a:

1. **Dispute description:** the buyer can provide an explanation of the dispute
2. **Cancel button:** closes the dispute windows
3. **Submit button:** submits the contract dispute

Create a Contract

1. On the bid proposal dashboard for the buyer's procurement request, detailed information about submitted bids is displayed, along with the **Award Bid and Generate Contract** button, which opens a form to finalize and issue the contract for the selected bid.
2. **Award Bid and Generate Contract:**
When the buyer clicks the Award Bid and Generate Contract button, a form opens to set up the contract terms, including
 1. **Contract Price**
 2. **Delivery Time**

3. **Payment Instructions:** a text field describing the payment terms
4. **Payment Schedule** – multiple entries can be added using the + **Add Payment** button

Each entry includes:

1. **Payment Date** (2.5)
2. **Payment Amount** (2.6)
3. **Remove Payment:** removes the respective payment entry (2.7)
8. **Save as Draft:** saves the contract as a draft without notifying the seller
9. **Issue Contract:** issues the contract to the seller

3. **Contract Documentation:** after clicking one of the buttons, a window opens for uploading supporting contract documentation (uploading is optional).

1. **Finish** button: when clicked, sends a notification and email to the seller that the contract has been issued for their bid proposal, unless the contract is saved as draft. The new contract will also appear on the buyer's contract dashboard.

Editing a Contract

1. On the contract dashboard, when clicking the **View Contract Info** button, the contract related to the selected procurement request is opened, displaying all contract details
2. **Contract Details** popup is opened
 1. If the contract is saved as a **draft** or has status **issued or edited**, an **Edit** button is available. Clicking this opens a form for editing the contract.
 2. **View Requested Changes**: displays if the seller has requested any changes to the contract
 3. **Close**: closes the contract details dashboard
3. If the **Edit** button is clicked, a form for editing the contract opens and it has the same fields as in contract creation form and it includes:
 1. **Save Changes** button: saves the submitted changes and keeps the contract in draft status or edited if it was issued before.
 2. **Issue Contract** button: issues the contract to the seller unless it has already been issued, then the button is disabled.
 3. **Close**: closes the dashboard for editing

Notifications

After a contract is awarded, buyers receive timely updates about any activity related to the contract through both the application interface and email. On the Contracts page, the buyer can:

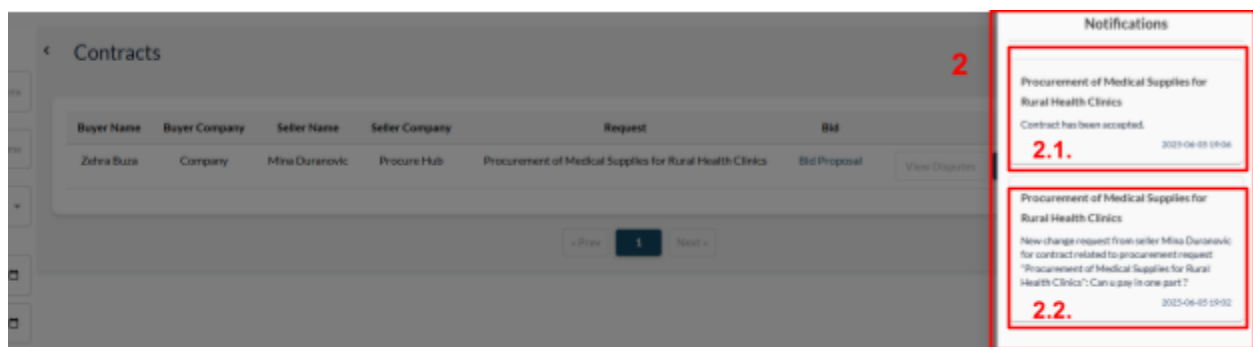

1. **View Notifications** Button: opens a side panel showing all the notifications related to the contract.

Contracts page

2. **Side panel** showing all the notifications related to the contracts includes:
 - 2.1. **Status updates** (e.g., when a seller accepts and signs the contract)
 - 2.2. **Submitted change requests** – sellers requesting modifications to the contract

Each notification includes a timestamp and relevant contextual details. Click on the notification opens a **Contract details** pop-up.

Contracts page : Notifications about contracts

In addition to the in-app panel:

3. **Email Notifications** – The buyer also receives an email when:

3.1. **A seller submits a change request for a contract.** Email contains:

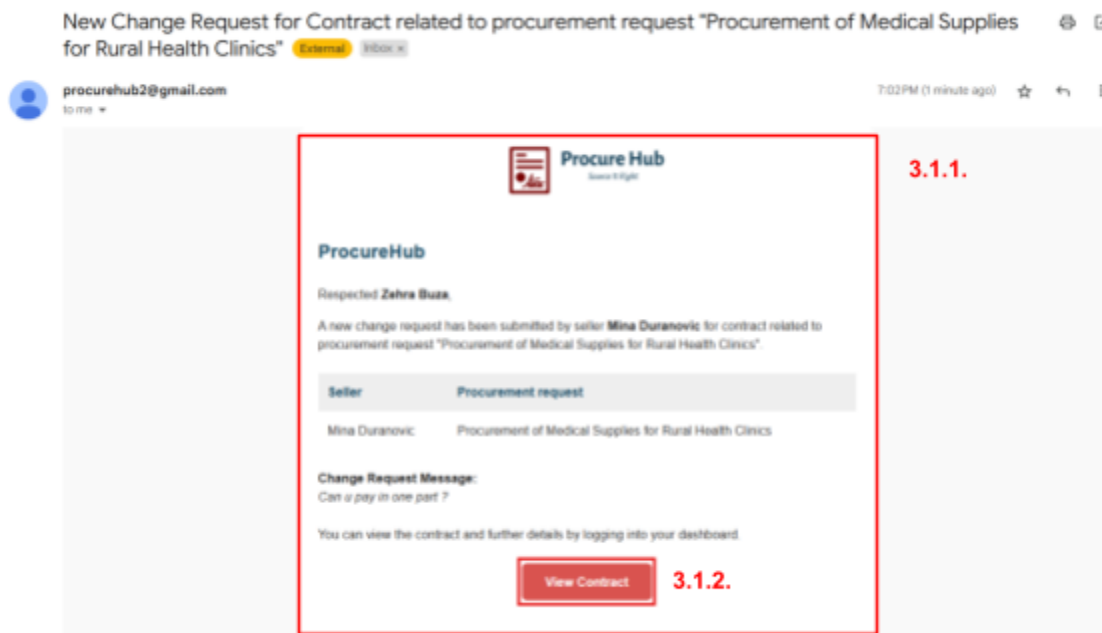

3.1.1. **Change Request Notice:** Informs the recipient that the seller has requested changes to the contract.

3.1.2. **View Contract:** Action button that redirects the recipient to the contracts page where they can view the full contract and more details.

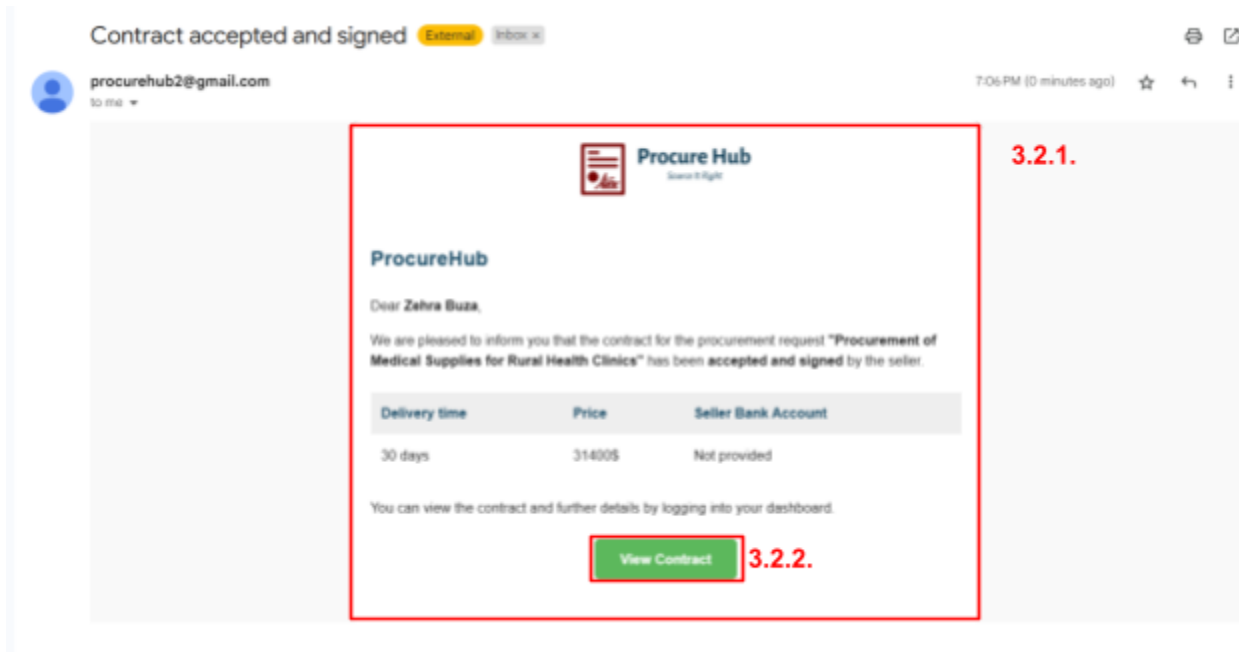

3.2. **A seller accepts and signs the contract.** The mail contains:

3.2.1. **Confirmation Notice:** Contract acceptance notification with relevant details

3.2.2. **View Contract:** Action button that redirects the recipient to the relevant procurement platform to view the full contract and more details.

Email notification sent automatically when a change request is submitted to a contract
